JACKSONVILLE (Fla.) July 27. (AP)—Riding on a wind which at times reached a velocity of 100 miles an hour, the storm which came out of the Caribbean Sea yesterday hit the lower Florida East Coast today and was traveling up the Atlantic seaboard tonight, leaving in its wake a trail of destruction.

The storm was reported late today as moving northward through the Florida Keys, apparently moving slowly north-northwestward. A report to the Tropical Radio Corporation at Miami said the center of the storm is retreating its steps in a 100-mile gale toward Miami.

**PICKING UP  
THE PIECES****Florida Beats Her  
Way Back**

Banks Are Sound and Former Sources of Revenue Are to Be Restored

Money Lenders Taking Over Improvements; Investors Taking the Loss

MIAMI (Fla.) July 27. (Exclusive)—The exceedingly high interest and bonus rates prevailing in Florida might be taken as an indication of the scarcity of money, but a close analysis proves that this is not the case.

The ordinary rates for loans running from 20 per cent to 45 per cent, are in reality only one step in the "milking" process now in active operation.

The victims of the process are the people who, in good faith, bought ground and erected or started to erect buildings thereon.

These people and others who were induced to finance acreage purchases with large first payments, now say they are being "choked."

The "choking" of Florida consists of a very simple operation. Builders, contractors, building owners and acreage holders, who are on the verge of being closed out by means of legal process, based on their original security loans, seek money through loans.

The holders of money, after deliberation, offer sufficient to clear obligations, and sometimes a small margin in excess. If accepted the man in distress at once may find himself with a deficit balance.

The victims of financial distress are not in very great numbers in Florida. "Ready money" is the most precious thing in the state, although there is a lot of it.

MAY PROVE BENEFIT In this way the ownership of the tremendous volume of property improvements built in 1924, is finding its way into the hands of second owners, and it may be that these properties, bought at low prices, will be utilized in future as reasonable rental rates, to attract greater throngs of winter visitors, and in that way, the state will receive credit and benefit of the State at large.

THE SIGNS OF MONEY DISTRESS on the part of property holders are apparent on every side. The classified advertisement of the daily newspapers indicate a tendency toward rental rates, to attract greater throngs of winter visitors, and in that way, the state will receive credit and benefit of the State at large.

PAUL BENNETT (N. Y.) July 27. (AP)—As the official responsible for the conduct of American foreign relations with all other countries, President Coolidge hopes that Americans abroad will do nothing to stir up animosities in foreign countries against the United States.

THE VIEWS OF MR. COOLIDGE were made known today at the executive offices, where, without any direct reference being made to demonstrations against American tourists in France, it was said he had seen press reports from different points bearing upon the attitude of foreign countries toward Americans.

THE PEOPLE OF THIS COUNTRY, it was added, should be thankful that they are in a position to do what it is to help other countries and it has been successful in that respect in a good many ways, but perhaps one of the most important things that can be done by Americans is to make allowance for the condition of foreign countries and not indulge in any unwarranted criticisms or recriminations.

**CLINE SAYS MYSTERY OF  
M'PHERSON CASE SOLVED****Officer Expresses Conviction Pastor  
at Carmel With Ormiston as She  
Refuses to Face 'Identifiers'**

BY READ KENDALL  
Times Staff Correspondent

MONTEREY, July 27.—Following the refusal of Mrs. Aimee Semple McPherson to come to Carmel and face those who say she was the mysterious goggled woman who occupied a seaside bungalow for ten days, during part of the time she says she was held for ransom by kidnappers, Chief of Los Angeles Detectives Cline announced tonight that as far as police officials are concerned the mystery of the asserted kidnapping has been solved.

Chief Cline made this announcement prior to his departure late this afternoon with Dep. Dist. Atty. Ryan of Los Angeles, for Salinas and Los Angeles.

CLINE CONVINCED According to the Los Angeles officer's statement he is convinced the woman who spent ten days in the house rented by a man they may be identified beyond doubt as Kenneth G. Ormiston, former radio evangelist, is the same woman who was the mysterious woman of the seaside bungalow. At that time Cline was unable to talk personally with the evangelist, but held a long conversation with her mother, Mrs. Minnie, in the evangelist's home, and based his assumption on what he termed "conclusive evidence."

The two officials are returning to Los Angeles with evidence they found at the previous bungalow in the art colony near here, and which completely will close the case as far as authorities are concerned, Chief Cline announced.

After checking on several clues in Salinas the two officials will continue to the Carmel bungalow, where they will lay evidence obtained there and at Carmel before Dep. Dist. Atty. Ryan.

Mrs. McPherson was invited by Chief Cline this morning to come to Carmel and face witnesses obtained by Ryan, who have identified the evangelist from photographs as the mysterious woman of the seaside bungalow. At that time Cline was unable to talk personally with the evangelist, but held a long conversation with her mother, Mrs. Minnie, in the evangelist's home, and based his assumption on what he termed "conclusive evidence."

## NEW YORK GETS DEMPSEY-TUNNEY TITLE FIGHT

### COMMISSION APPROVES GO BY VOTE OF TWO TO ONE

**Richard to Hold Battle in Yankee Stadium September 16; Illinois Body Bars Fray for Chicago**

NEW YORK, July 27. (Exclusive)—With Commissioner George E. Brower for the first time exercising his full power as the man with the pivotal vote, the State Athletic Commission today snatched the Jack Dempsey-Gene Tunney world's heavyweight championship bout right out of the hands of Chicago.

They brought it back to New York, where the Dempsey-Tunney fight was held, by a vote of 2 to 1, against the Chicago bid.

The starting action was taken at the meeting this afternoon with the commission on the basis of Mr. Brower's action on Monday night when he voted to let the fight be held in Chicago at once and, re-open, the case before the new York Commission. Apparently acting on this lead, Matchmaker Jesse McMahony and William P. Carey, who is treasurer of the Madison Square Garden

association, appeared before the commission representatives and asked that approval be given for the Dempsey-Tunney fight here.

Commissioner William Muldoon, who had been waging a fight to bring the title bout to New York, was not in favor of it. Chairman James F. Frawley, still standing by his guns for the match, voted no. Then Mr. Brower, who up to now had been in the hands of the Chicago

representatives, appeared before the commission and asked that approval be given for the Dempsey-Tunney fight here.

Commissioner William Muldoon, who had been waging a fight to bring the title bout to New York, was not in favor of it. Chairman James F. Frawley, still standing by his guns for the match, voted no. Then Mr. Brower, who up to now had been in the hands of the Chicago

Commissioner William Muldoon, who had been waging a fight to bring the title bout to New York, was not in favor of it. Chairman James F. Frawley, still standing by his guns for the match, voted no. Then Mr. Brower, who up to now had been in the hands of the Chicago

representatives, appeared before the commission and asked that approval be given for the Dempsey-Tunney fight here.

Commissioner William Muldoon, who had been waging a fight to bring the title bout to New York, was not in favor of it. Chairman James F. Frawley, still standing by his guns for the match, voted no. Then Mr. Brower, who up to now had been in the hands of the Chicago

representatives, appeared before the commission and asked that approval be given for the Dempsey-Tunney fight here.

### HOT-WEATHER SPORTS THAT KEEP YOU COOL

"Red" Grange, the football hero, has gone back to his summer trade as you can see by the photo here. He should not be confused with the handsome young gent at the right, who is none other than Vance Vieth, who in the days of his youth was swimming instructor at the L.A.A.C. He occupies a similar capacity in Dallas, Tex., and his idea of keeping cool is to sit on a cake of ice and munch a cornucopia. On the other hand, Walter Hubbard, who owns star-boat 328, which appears below, has different ideas. He prefers a life on the bounding billows, with spray whisking in over the bowsprit or wherever it is supposed to whisk. Hubbard takes his star-boat to Long Island Sound in September for the international races to be staged there. The star-boat photo is by R. H. Stone, while the "Red" Grange photo was supplied by F. & A. service.

### JOHN DOE ELIMINATED BY NORTON

**Santa Monica Net Star Pushes Rival to Three Sets But Loses**

NEW YORK, July 27. (AP)—Vigorous action which spared only William Tilden and Vincent Richards marked the final of the M. E. T. tennis championship today on the grass courts of the Crescent Athletic Club.

Six of the seeded stars advanced to the quarter-finals of the national championship today. Tilden, overcame a first round upset by John Doe, 6-3, 6-1, and Richards, 6-3, 6-1, defeated John Doe, 6-3, 6-1.

John Doe, who holds the Olympic doubles title with Vincent Richards, was the day's most starting upset under a steady attack by Hugh G. M. Keliher against his backhand. Hunter was caught out of position repeatedly by his foe's well-timed drives and failed to stem the tide by desperate rallies at the net. The score was 3-6, 6-3, 7-5.

Norton, Chapin, Williams and King barely escaped the same fate. The former South African star was extended to three sets to beat off the attack of the Santa Monica, Cal., junior, John Doe, 6-4, 6-8, 7-5.

Williams, after surviving a three-set battle in the second round with Jack Wright, Canadian Davis Cup star, easily disposed of Teizo Tobe of Japan, 6-2, 6-0.

**WINS GOLF TITLE**  
WINNIPEG, (Man.) July 27. (AP)—C. Ross Sommerville of London, Ont., today won the Manitoba Amateur Golf Championship with a score of 149 for the 36 holes. He turned in a card of 73 today while his score yesterday was 76.

**SANGOR GETS NOD**  
MILWAUKEE, July 27. (AP)—Joey Sangor of Milwaukee won a newspaper decision over Henry Leonard of Chicago in a ten-round bout at the Milwaukee Baseball Park tonight. Both weighed in at 125 pounds.

### HELEN WILLS PLAYS TODAY

NEW YORK, July 27. (AP)—Miss Helen Wills, national women's tennis champion, will play in her first tennis competition since her operation in France for appendicitis when she takes the court in the invitation tournament at East Hampton, L. I., tomorrow.

Except for Mrs. Mailla B. Malloy, it is not expected that many of the other women stars will play, owing to a conflict with the Essex county championships at Manchester, Mass., in which most of the stars are playing.

Miss Wills was operated on June 4 in Paris, and discharged from the hospital July 12. Outside of a fortnight's practice at the West Side Tennis club at Forest Hills, the champion has not played since her illness.

## Par Threatened In Brentwood Tourney

### STARS LAND ON "PINCHES" KUNZ

**Fifteen Hits Collected by Movie City Outfit**

**Frank O'Doul Smashes Pair of Circuit Clouts**

**Relief Hurling of O'Neill Halts Oaks' Attack**

BY ROBERT RAY  
Finding the offerings of Mr. Earl ("Pinches") Kunz to their liking, Oscar Vitti's "stugging" Stars pounded out fifteen hits yesterday, with enough runs interspersed to give them a 3-2 victory over Ivan Howard's Oaks in the eighth inning at Wrigley Field.

As a special added attraction, the small but select gathering of fans on hand witnessed a reunion of a couple of players who did not know that they were related until yesterday. The two making the reunion possible were Mr. Kunz and Frank ("Lefty") O'Doul, who perforce in the outfield for the Stars.

Mr. O'Doul discovered when he came to bat in the sixth inning that Mr. Kunz was his "cousin." After that Lefty had a great day at his "cousin's" expense, hitting two home runs and a single in his last three times at bat.

Phil Mulenbax, upon whom Owner Bill Lane has bestowed the title of "good-time Charley" of the Stars, started with a couple of suspensions, started on the mound for the Home Guards, but was in trouble so much that Harry O'Neill had to relieve him in the fourth inning with the score tied. Right of the Oaks' thirteen hits were made off Mulenbax in his three and two-third inning stay, but O'Neill put the brakes on the Oaks' activity around the plate, thus making it easy for the Stars to run away from the Oaks during the remainder of the game.

**ONE FOR THE BOOKS**  
One for the books came up in the Hollywood half of the second inning when "Buss" Arlett, Oak outfielder, (Continued on Page 2, Column 3)

### Bambino Busts 31st Home Run as Yanks Win

**Youngsters Finish With 73s to Crowded Champions**

**Medal Honors Divided When Visitor Scores 72**

**Von Elm Adds Class to Best Field of Season**

BY BILL WISE  
Dr. C. C. Hartley of the Los Angeles club slipped home through the early twilight at Brentwood late yesterday, to score a 73, miss the amateur course record by one stroke and tied with Perry Ferguson of the home club for low gross honors in the flashiest invitational field numbering more than 350 players, a record for the season.

While a record first-day gallery of several hundred players and friends elected to follow George Von Elm of Rancho in his first local competitive appearance since tying with the great Walter Hagen for third place in the British open championship, four of the best youngsters in the West were checking up history of their own that invites repeating.

**AGGREGATE 394**  
Pay and Lester Coleman of California and Harold and Russell Thompson of Oakland, with a four-some best ball of slightly more than nothing, completed their qualifying play with a four-ball aggregate of 394, which is usually several strokes better than the best players in the country medal over what is equivalent to the 72-hole championship route. Buddy Thompson, a beautiful stylist—and the youngest of the quartet, out in 35—had the best chance for major-tourney honors, but slipped over and finished with a 73 to tie his older brother, Harold, and Lester Coleman, the youngest of the stellar California club duo. Pay Coleman, out in 36, took a seven on the par five-teenth and wavered just enough to finish with a 78.

Von Elm should be mentioned as greater length sooner, but what is thought to be a national record was (Continued on Page 2, Column 3)

# Newport Regatta Recalls 1922 Event; Stars' Race for Title

## YOUTHFUL YACHTSMEN SET SAIL FOR BALBOA

Scintillating Corinthians to Enjoy Gala Program

Back in 1922, which isn't so long ago that the youngest Woolf bird fledging would have to strain his memory to recall, the first big all-Pacific Coast regatta was held on pictureque Balboa Bay and the surrounding waters of the Pacific.

It was a real salty, sea-going regatta, with plenty of perch and pink sea for the sailors' wives, and when the fellows get together after a day of sailing, one of the favorite topics is—do you remember back in 1922?

But 1922 is done and gone, and the regatta exists in memory only. Four years is a long time, and the same old crew that put the pepper in the regatta that year has been looking forward to another regatta that would beat all past performances.

Well, the time has come and once more Newport is to be host to the big Corinthian family. This time the sixth annual Southern California Yachting Association regatta will be greeted early next Monday morning.

By that time, the bay should hold more boats than water. If all the Southern California yachtsmen who plan to attend, are on deck.

Commodore Joe Beck and his staff of officers, many of them the leading lights in putting over the 1922 regatta, have been working hard to make the 1926 event the last word in regattas.

The regatta program has a wide scope and calls for ocean and bay races in every type of boat from skiffs to schooners, and outboards to cruisers. Sweet sailing R-class sloops, the biggest fleet of stars on the coast, will be seen in the regatta.

Inside the bay, over the upper and lower courses, the speedy 151-class hydroplanes, the motor launchers, snowbirds, bay sloops, model yachts, and outboard equipped put-put will stage their races. With competition gloves, a week of hot contests will be waged on bay and ocean.

Now has the social end of the regatta been neglected. Wives and families of the Corinthians will have a series of entertaining parties and teas coming up every day to cap them thoroughly busy.

The Southern California Yachting Association, which has planned a number of events to round out a full program.

# Ferguson and Hartley Even at Brentwood

(Continued from First Page)

established when four of the most popular members of the club fraternity, playing in the same foursome, all medaled 79. George Cornes, Big Bruce Bundy and Chief Solomoni, all of Lakeside, playing with L. V. Bentley, husky Brentwood ace, sunk their final puts on the home green—checked and rechecked thrice, at cards, and all had scored 79s.

Breaking eighty over Wee Willie Hunter's Brentwood course is just about the toughest assignment local golfers draw—and the feat should receive double credit.

The gallery that gathered from nowhere to follow the most popular player western golf has ever known, was amply rewarded through the tee and greens efforts of Von Elm's four-some companions, E. S. (Scotty) Armstrong, of the Midway Club, one of the best players in this vicinity who has many guided his way to a major tourney laurels, Jack Neville, of Bell-Air, several times State champion, and Howard Hughes, slender Ranccho star. Neville was low with a 78, Von Elm and Hughes had 77s and Armstrong finished with a 78.

George demonstrated his uncanny ability with the new Stewart iron clubs that carried him to intercontinental golfing fame and further entertained the large gallery with five puts on seventeen. George was out for a lot of fun and after a thirty-foot putt had jumped one inch out of the back of the cup on sixteen—his trick putt moved the ball over—but not into the cup. The performance was repeated on seventeen and Von Elm hit the back of the cup and watched the ball drop to the bottom. George is one of the very few golfers in the country who can come very close to even par—regularly, at Brentwood for the course, stiffened by a sweeping cross wind that increases toward the evening. It offers one of the best tests in this vicinity.

It is much easier to be born famous than make a hole in one, but E. S. Biege watched his tee shot carry nearly 175 yards and then tricked into the cup on the third green during the qualifying play yesterday. W. Forrest Corbett, of Brentwood, one of the longest drivers in Southern California, shattered another record of long drives when he was a fiery yards over the nearly 600-yard tenth in 2.

Pairings and starting time for first-round matches today, with yesterday's low qualifying scores, are as follows:

There's real art in coloring a meerschaum

CONNOISSEURS of the fine art of meerschaum coloring still stick to the slow-but-sure way of "smoking" the color in. . . And this method is most satisfactory so long as you use tobacco that burns slowly and cool, so that the color comes gradually and evenly.

Now, because this is the very thing that has made Granger Rough Cut nationally famous, men experienced in the art suggest Granger for meerschaums. Its large flakes burn cool. It colors the pipe delicately, evenly, perfectly.

Whether you're coloring a meerschaum, breaking in a briar, or caking a corn-cob, Granger is the same cool, fragrant, mellow smoking. You may have a hundred pipes, yet you need but one tobacco. . . for Granger is an all-pipe tobacco.

# GRANGER ROUGH CUT

## KIDNEY TROUBLES

New understanding of cause and modern drugless treatment with vital natural food

**HEALTH** authorities now agree that malnutrition is the basic cause of all chronic disease, particularly disturbances formerly considered inherent in the blood, kidneys, stomach, liver, intestines, pancreas, heart and other organs of the body. Now it is known that these maladies are but local manifestations of faulty nutrition. Therefore, the only right way to overcome is to correct malnutrition by supplying through natural food, heavy needed tissue-building elements. For a properly nourished body is a healthy body and cannot harbor disease.

Fortunately, nature has provided a natural food most effective in combating kidney disorders and other diseases of malnutrition. The Maguay plant, cultivated on the tropical plateaus of old Mexico, produces, after ten years' growth, a sweet sap extraordinarily rich in vitamins, natural yeasts and organic minerals. It supplies vital energy to a sick body by means of its distinctive sweet called Agmese. And now, after being used for centuries in Mexico to treat disease, this life-giving sap is available in concentrated uncooked form, called Agmel, exactly as it comes from the plant except for removal of water.

Agmel supplies the vital food elements in such profusion that it makes a powerfully corrective diet of ordinary foods. The blood is purified, kidneys strengthened and rebuilt, digestive power increased, and elimination through kidneys and bowels regulated and made normal.

Every sufferer from kidney trouble of any kind, including Bright's disease in the most advanced forms, should investigate Agmel. Prominent physicians now prescribe it. Proof is not lacking of permanent relief obtained in a majority of cases treated with this remarkable uncooked food.

A letter or postcard, stating trouble, will bring complete information and valuable literature. Without obligation, interested persons are invited to call for consultation and to sample pleasant-tasting Agmel free.

## GOVERNORS RAP CAPITAL PRYING

### Agricultural Interference Decried by Executives

### Cheyenne Session Upholds Federal Dry Fight

### State Chieftains to Witness Wyoming Rodeo

CHEYENNE (Wyo.) July 27. (AP)—While Governors representing every section of the nation agreed that prohibition enforcement by the Federal government is no violation of State rights and is an extremely necessary part of the present-day governmental activities, two western Governors assailed Federal governmental interference in agriculture and industry of their sections, at the second day's session of the national Governors' conference here today.

It is distinctly the province of the Federal government to enforce prohibition and State governments should lend their support and own police forces for the upholding of the "dry" law, so Gov. Brewster of Maine, Gov. Trumbull of Connecticut, Gov. Pierce of Oregon, Gov. McMillan of Nebraska and Gov. Fields of Kentucky, went on record in conference addresses.

The extension of the Federal government police powers to enter the field of local government was the remedy of Gov. Brewster to curb the increasing crime wave, "intimately allied with prohibition, the scent of liquor running across the trail of every crime."

"No backward step in national prohibition should or can be taken," was Gov. Pierce's view.

Gov. Trumbull advocated that officials to enforce the "dry" law be selected with every absolute consideration as to their integrity and attitude toward prohibition.

**CO-OPERATION SUPPORTED**

The co-operation between Federal and State governments was supported in regard to prohibition by Gov.

## SIGN LANGUAGE REVIVAL ASKED

### California Seeks Permit to Teach State's Children How to "Speak" It

SACRAMENTO, July 27. (AP)—Conversation without words by means of the "oldest American language," is what William Tomkins of San Diego wants to teach the school children of California. His application for a certificate to teach the sign language of the American plains Indians was being considered today by Will C. Wood, State Superintendent of Public Instruction.

The sign language, says Tomkins, is a language of much beauty and imagery, but, "unless it is taken up by the youth of America it will soon disappear."

Fields, who upset the traditional stand of the Southwest, a strong advocate of the operations of the Federal government in State activities which contained some national aspect.

"Intelligent co-operation between government and business is vital to the prosperity of the country," was the view of Gov. Brewster in his discussion of the economic phases of the relations of the Federal and State governments which with prohibition formed the two main themes in the State rights debate of the State executives' conference.

"It is a travesty to talk of governmental decentralization when every commercial and industrial interest is more and more intimately allied."

"The States today are the prey of forces from monopolistic industry that lie entirely beyond their own control in the Federal zone," he said in urging that the States of the Union accept proper Federal governmental activities in agriculture and industry.

That the Federal government, through its public domain, controls nearly half of every State of the Far West was the assertion of Gov. Cern of Utah in attacking the national government's land policy. He charged that in the allotment of school lands in the Western States the Federal government is endeavoring to control the mineral rights of these grants.

**SCORES ENCROACHMENT**

"The westerner feels like he was a trespasser in the land of his birth," was the characterization of Gov. Pierce of the increase of Federal government activities which "dictate how we shall raise our babies, and where we shall graze our live stock." He urged the conference to take a stand, "resisting any further encroachment of the Federal government upon the power of the States."

Gov. McMillan of Nebraska reviewed the increase of "dual government—Federal and State—in the country." He said the improvement in State government along lines of business efficiency.

The conference session late today was held in a typical western setting, a cattle ranch twenty-five miles north of here. The ranch house, surrounded by corrals, filled with cow ponies and with campuchers as attendants in chaps and sombreroes, gave the eastern and southern State executives a glimpse of the real West.

An executive session in which the chairman of the 1927 executive committee, policies of the conference and the next meeting place of the State Executives will be determined will be held tomorrow as the closing gathering of the conference. Taylor Rogers, secretary of the likely choice for the chairmanship of the 1927 conference.

The Governors in the afternoon will witness the Cheyenne frontier days, rodeo and bucking bronchos each named for a Governor, will be tackled by the "top hand" cowboys for world cowboy titles. In the evening the Governors will leave for a six-day tour of Wyoming, including Yellowstone National Park, Casper, the Salt Creek and Treapot Dome oil fields and Northern Wyoming.

## FOREST ABLAZE IN GLACIER PARK

### Lightning Increases Peril Throughout Northwest

### High Winds Scatter Flames Over Wide Area

### Two Serious Outbreaks in California Timber

MINNEAPOLIS (Mont.) July 27. (AP)—After running a mile before a high wind yesterday, the May Creek fire in the Blackfoot forest today was reported to have spread into Glacier National Park in five places, and to be scattering over 8000 acres. In the Couer d'Alene forest the flames sprang up with renewed intensity, leaping control lines and forcing crews of fighters to flee to safety.

New lightning fires through the entire forest district, embracing Western Montana, Northern Idaho and Eastern Washington, today added to the difficulties of the fighters who have worked for days to establish control lines, only to see them vanish before the onrushing flames.

A new group of fires, set by lightning yesterday near Columbia Falls, became serious during the night, and fifty men were rushed from here today to reinforce the crews attempting to hold them in check.

**WIND SCATTERS FLAMES**

Most of the work done on the Independence Creek fire on the Couer d'Alene was wiped out yesterday when the conflagration was scattered over a wide area by winds.

A telephone message from District Forester Fred Morrell, from Newport, Wash., today said that the fire in the Kaniksu forest was the worst in the entire district, the flames now covering an estimated area of 50,000 acres. Men are being placed on the front as rapidly as available. Morrell said, and Washington headquarters of the Forest Service have detailed a half dozen supervisory officers from other districts to aid in the Kaniksu fight.

A new lightning fire broke out in the Pend Oreille forest yesterday. The Caribou fire lines in that region are being held, and today there was a possibility of control being established.

Three lightning fires were started on the Kootenai forest yesterday where fifteen serious fires, fanned by hot winds, already are raging. Another fire was reported from the Lolo forest close to the operations at St. Regis, of the Montana Logging Company. A second fire in the Lolo forest also was reported burning on Indian timber lands near Ravalli.

**HUNDREDS OF FIRES**

Though comparatively quiet yesterday, the Collins fire on the Clear Water forest spread to 4000 acres. During the latter part of the second outbreak of the flames forestry officials estimated today, 415 fires had started in the district. Of these, 161 were on the Kaniksu forest, 183 on the Pend Oreille, forty-six on the Kootenai, twenty-nine on the Selway, twenty-one on the St. Joe and seventeen each on the Couer d'Alene and Lolo.

During the period the report covered, the Kootenai forest burned 58,000 acres, but this figure has been increased considerably during the past few days.

Lightning is blamed for 97 of the fires, and smokers, twenty-three, the cause of the rest being unknown.

**TWO SERIOUS FIRES IN CALIFORNIA FORESTS**

SAN FRANCISCO, July 27. (AP)—Two big fires were raging, the attention of approximately 700 fighters in national forests in California today. In the Stanislaus forest a fire in the holdings of the Pickering Lumber Company had swept over thousands of acres of second-growth timber, and about 800 men, including all of the available employees of the lumber company, were on the fire line. Another fire outside of this forest was sweeping toward the town of Coulterville, and back-firing was being resorted to.

The second big fire was burning in the Plumas forest between the Western Pacific Railroad Company right of way and Three Lakes, and was sweeping toward Balden. The railroad rushed 200 men to the scene. The fire which has been raging for a week in the Bogus Creek section of the Klamath forest, was reported controlled.

# The MAY CO's Birthday Sale

## Worth \$15 to \$25

Direct from New York's foremost designers. All sample hats—copies of late Paris modes—from Rawak, Kibel, De Marinis and Laurel.

The Millinery Shop makes its contribution to the Birthday Sale with a record offering. An extraordinary group of advance fall hats—representing an unusually judicious purchase on the part of our buyer—arrive. Strikingly individual and distinctive models, reflecting the latest edicts of Paris. Hats giving prominence to the smart new SIDE trim, as dictated by Paris! Stunning self-draping of velvet; the crown with the bloused sides, and many, many more.

French fur felts—decidedly new and different. Two-tone ribbon combinations—velvets—moires—stitched crowns—shirred crowns!

ALSO a special group of ever-so-smart hats, for the stylish matron, featured in larger head sizes. A most complete assortment of shapes, sizes and colors, to complement the autumn ensemble. This is a two-day event—don't delay!

(The May Company—Millinery—Third Floor)

# NOW HERE!

You Are Invited to Attend the Public Showing of the New Studebaker Custom Sedans

## Equipment

No-draft ventilating windshield, bumper and bumperettes, engine heat insulator and gasoline pump on the dash, continental lock, oil filter and oil pump, automatic windshield wipers, automatic spark control, rear vision mirror and two-beam headlights controlled from steering wheel.

(Illustrated) Studebaker Standard Six Custom Sedan \$1625

Big Six Custom Brougham .....\$2275  
The President, a Big Six Custom Sedan, mohair or broadcloth upholstery .....\$2555

All prices delivered in Los Angeles, including full equipment, 4-wheel brakes and disc wheels.

FOR the first time in an automobile of economical production, these Studebaker Custom Sedans duplicate the master creations of custom design!

Swung low in the body—close-hauled in the coachwork—fleet and flowing in their lines—resplendent with the lacquered loveliness of duotone color schemes—and replete with every detail of correct custom treatment, from broadlace trim, Butler finish hardware and Chase Mohair interior, to the silvered figure of Atalanta poised on the radiator.

These Custom Sedans combine the lines that appeal to a woman with the stamina that appeals to a man—add custom refinements to the ruggedness of Studebaker performance—offer

disc wheels and four-wheel brakes—reaffirm the inflexible standards of Studebaker quality—and invoke anew the great Studebaker tradition of MAKING GOOD WITH THE PUBLIC BY CONTINUALLY MAKING BETTER IN THE PLANT!

They are the latest examples of the Studebaker policy of progressive betterments. To the smoothness and power of the quiet Studebaker L-Head motor is added the custom symmetry of line and treatment that would be absolutely impossible, at the Studebaker price, without Studebaker One-Price facilities.

These Studebaker Custom Sedans are now on view at our display rooms. You are invited to come in and see them.

Parking Accommodations for Customers in Our Garage at 621 West Pico.

Quarter Million

WASHINGTON, July 27. (Exclusive) A plan to turn into the United States Treasury receipts as and when they accrue from the naval reserve oil leases will be presented soon to United States District Judge McCormick by the two receivers of the Elk Hills and Buena Vista naval oil reserves. This is to take the place of the present arrangement whereby the funds received are invested in Liberty bonds and deposited in banks in Los Angeles. The object of the plan is to give the Treasury the use of funds which are constantly accruing and over which there is no dispute.

On September 1, next, there will have accumulated the sum of \$5,500,000. Thereafter there will be a monthly royalty due amounting to about \$350,000. If the proposed plan is approved by Judge McCormick, this money will be paid directly into the Treasury as soon as it is turned over to the receivers.

**PLANS AGREED TO**  
The plan will be presented to Judge McCormick in the form of a stipulation to be prepared and agreed upon by the respective counsel for the plaintiff and the defendants. Counsel for the plaintiff, the United States, are Messrs. Pomeroi and Roberts. Counsel for the defendants the Pan-American Petroleum Company, are Messrs. Kellogg and Hagan. The change in the manner of the disposal of the royalties was suggested by Secretary Wilbur.

Transmittal of some of the money is in dispute and its disposition can not be affected by any decision of the United States Supreme Court when the case is brought before it for final settlement on October 4, next. It was considered by the Secretary of the Navy to be a more satisfactory arrangement to make the money available for the use of the Treasury instead of having it simply invested in Liberty bonds. Receivers, Rear Admiral H. H. Rousseau for the government, and J. Crumpton Anderson for the Pan-American Petroleum Company, are in agreement with the plan.

The monthly royalties amounting to \$350,000 proceed from the naval oil reserves Nos. 1 and 2 in California. Receivers were appointed for reserve No. 1 on March 24, 1924. Three leases are covered by this receivership which amount to a total of about 30,000 acres. Of the total production from these leases, amounting to about 4000 barrels of oil per day, a certain amount accrues to the United States as royalty, no matter how the litigation is decided by the United States Supreme Court. These royalties amount to about \$250,000 per month.

**ROYALTY PRODUCTION**  
Since October 1, 1925, the royalty production from all other leases in naval reserves Nos. 1 and 2 is also payable, by order of court, to the receivers. This amount, about \$225,000 a month, is not in dispute. The total amount, \$575,000 per month, will have amounted to \$5,500,000 from October 1, 1925, until September 1, 1928. Before October 1928, the royalty production of \$225,000 per month was used to pay for the construction of the navy oil tanks at Pearl Harbor, Hawaii. These tanks were constructed by the Pan-American Petroleum Company and were paid for by October 1, 1928.

It is estimated that, if the receivership continues until the end of the present year, the total amount to be returned to the Treasury by December 31, will be \$4,500,000.

**Hunan Province Capital Seized by Foes of Wu**  
PEKING, July 27. (AP)—Changsha, capital of Hunan Province, was occupied the 17th inst. by Hunan troops supported by troops of the Canton government. Gen. Wu Peifu's lieutenant commanding the northern forces there was driven out of Changsha and retreated toward Tsochow. Capture of Changsha by the southern forces was reported from Canton under date of the 24th inst., but lacked verification and was generally discredited there. Changsha is a city of approximately 300,000 population. Tait Mission, an American college, is situated there. It is on the line of the projected Hankow-Canton Railroad, partly constructed.

**HONOLULU DEMOCRATS FAVOR SUGAR TARIFF**

HONOLULU, July 27. (AP)—As the territorial Democratic platform convention yesterday a platform was adopted endorsing a tariff for sugar producing countries. The resolution reads, in part: "We align our party with representatives and Senators from sugar producing States who have for many years striven that the tariff on sugar be retained at a figure which will protect the heads in industry of these islands and we pledge our delegate, if elected, to continue to aid and assist in every possible way to the end that the tariff be retained."

**VILLAGERS IN CHURCH WHILE TOWN BURNS**

STRAUBING (Bavaria) July 27. (AP)—While most of the villagers were attending church fire broke out in incendiaries broke out, and spread so rapidly that all the 100 buildings in the town were destroyed within two hours. The villagers were able to save only part of their cattle.

# You'll like the Beaches at San Diego!

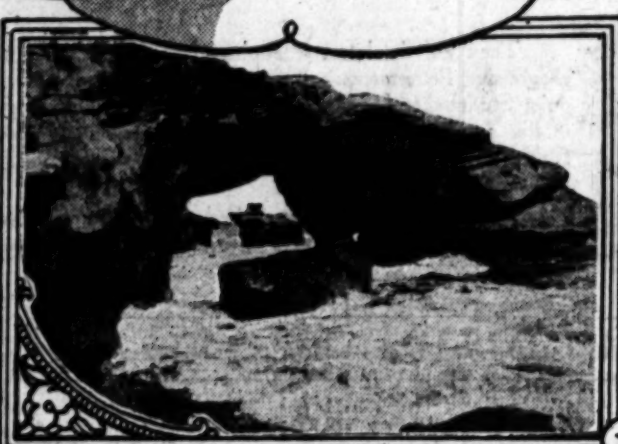

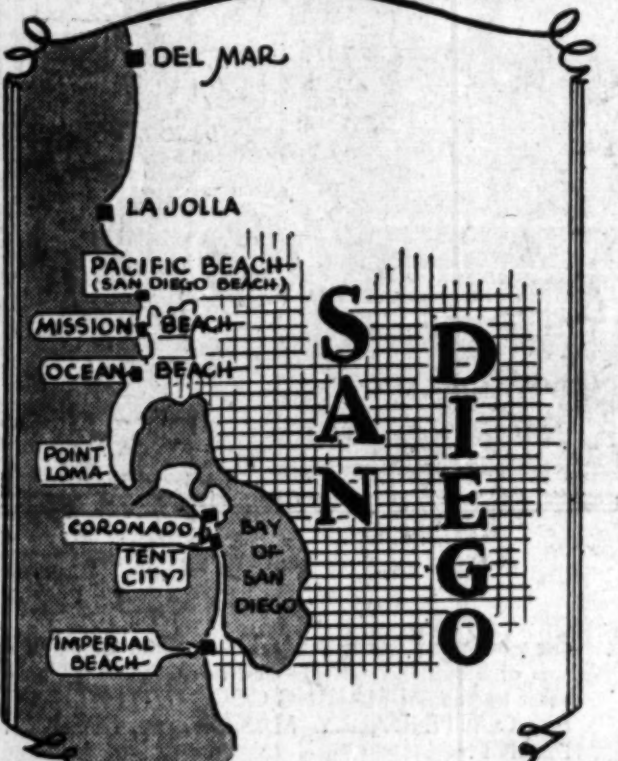

AFORDING MILE AFTER MILE OF  
SPLENDID BEACHES, BORDERING THE  
OCEAN AND TWO GREAT LAND-  
LOCKED BAYS... SAN DIEGO IS PRE-  
EMINENTLY FORTUNATE IN ITS RE-  
CREATIONAL ENVIRONMENT.

ITS BEACHES are quickly and easily  
reached... are free from overcrowding  
... and offer remarkable variety in physical  
characteristic.

Some are broad, inviting stretches of sand  
... some are "here and there" among wave-  
worn cliffs and caves... and still others  
afford extensive "double beaches" on penin-  
sulas with the ocean surf on one side and  
the quiet waters of a bay on the other.

San Diego and Mission Bays also form  
another attractive feature... providing  
twenty-five square miles ideal for yachts  
and smaller craft. Almost anyone in San  
Diego can have a boat tied up at some con-  
venient point ready for use.

If you like the water, and a sniff of the sea...  
if swimming, boating, fishing—or just plain sun  
baths upon the beach—hold attraction for you....  
San Diego is a city in which you'll enjoy living.

## SHERIFF TELEGRAPHS MURDER CLEARED UP

KELSO (Wash.) July 27. (Exclusive)—The Dorey murder has been cleared up," says a telegram received here from Sheriff Studebaker who left St. Louis Saturday with John W. Owens, alias John W. Smith slayer suspect. The message said that no details would be given until the officer and his man return to Kelso. Thomas Dorey, editor of the Cow-Itis County News, was killed over a year ago and officers have since been searching for Owens and another man.

## MAN MAKES FIFTEEN FOOT DIVE INTO CANOE

VANCOUVER (B. C.) July 27. (Exclusive)—Frank Michelin, fireman on the S.S. Princess Victoria running be-

## between Vancouver and Nanaimo, suffered severe injuries to his face and head while bathing from the G. P. R. wharf at Nanaimo. He dived fifteen feet and landed inside a canoe being peddled silently, close to the wharf, by two orientals. He will recover.

## SANTA BARBARA MAN DRIVES THROUGH FIRE

RENO (Nev.) July 27. (Exclusive)—Caught between two forest fires in Kings Canyon, between Carson City and Lake Tahoe, Harold Oregon of Santa Barbara, Cal., escaped death by driving through the flames. Mrs. Oregon's arms were badly blistered, and the car was scorched. Oregon also rescued a lost fire-fighter in his wild dash through the blazing forest. A shift of the wind swung the flames on Oregon after he drove past the first flaming hill. Oregon is director of the Community Auto Association Chorus of Santa Barbara.

## MRS. CLOVER MILES DIVORCED IN RENO

RENO, July 27. (AP)—Mrs. Clover Miles, only daughter of the late George C. Boldt, once owner of the Waldorf-Astoria in New York, was granted a divorce today from A. Graham Miles, whom she accused of extreme cruelty. She came to Reno from New York last January with her daughter. The marriage of the Miles took place in St. Thomas Church, New York City, October 8, 1907.

## CHURCH FILMS TO BE EXPERIMENT OBJECT

NEW YORK, July 27. (Exclusive)—Experiments which will determine whether or not motion pictures suitable for church use can be produced on a noncommercial basis, will be

conducted by the Harmon Foundation of New York. George Reid Andrews, chairman of the Drama Committee of the Federal Council of the Churches of Christ in America and Maj. Herbert M. Dawley, who produced several films for the Metropolitan Museum of Art in New York are directly in charge of the production of six films for the Foundation. Maj. Dawley's inventions made possible the filming of "The Lost World." The project has the approval of Will H. Hays.

## WRITER ASKS WATER RIGHT SALEM (Or.) July 27. (Exclusive)—Zane Grey, widely known novelist, has filed application with the State engineer for a water right on Ditch Creek, a tributary of the Rogue River in Curry county. Grey recently bought some property there. The water will be for domestic, mining, irrigation and power use, according to the application.

## PLANS FOR LARGER ARSENAL CONDEMNED

WOODBRIDGE (N. J.) July 27. (AP)—Plans of the United States government to increase the size of Raritan Arsenal were condemned by the Woodbridge Township Committee in a resolution adopted at its meeting last night. The arsenal grounds are now confined to Raritan township and the resolution was adopted in reply to a notice that the government intended to extend its arsenal holdings into Woodbridge township.

## MANY CARS FROM CALIFORNIA PORTLAND (Or.) July 27. (Exclusive)—More than one-half of the outside automobiles registered in Oregon come from California. Up to the 1st inst., there had been a registration of a total of 18,276 California cars in Oregon since the first of the year. In June alone there were 8171 California cars here.

# CAPTAIN SCRAPGGS OR THE GREEN PEA PIRATES by Peter B. Kyne

THEY were the first to see it; the first to see the American steamer *Yankee Prince* in the Gulf of Mexico. She was a big tramp with a valuable cargo from Hongkong. With her rudder gone and her crankshaft busted.

"It's high water at 12:37," Jack Flaherty pleaded. "You'd better send me, Tiernan. The *Booga* has more power than the *Aphrodite*."

This was the truth and Dan Hicks knew it, but he was not to be beaten out of his share of the salvage by such a flimsy argument. "Jack," he pleaded, "don't be a hog all the time. The *Yankee Prince* is an 8000-ton vessel and it's a two-tug job. Better your line about Tiernan and play safe. Chances are our competitors have three tugs on the way right now."

"What a wonderful imagination you have, Dan. Eight thousand tons! You're crazy, man. She's 1500 net register and I know it because I was in Newport News when they launched her, and I went out with her skipper on the trial trip. She's a long narrow-gutted craft, with engines aft, like a lake steamer."

"Well, play safe," Tiernan decided. "Go to it, both of you, and may the best man win. She'll belong to you, Jack, if she's 1500 net and you get your line aboard first. If she's as big as Dan says she is, you'll be equal partners."

But he was talking to himself. Down the dock Hicks and Flaherty were racing for the respective commands, each shouting to his night watchman to pipe all hands on deck. Fortunately, a goodly head of steam was up in each tug's boiler; because of the fog and the liability to collisions and a consequent hasty summons, one engineer on each tug was on duty. Before Hicks and Flaherty were in their respective pilot houses the oil burners were roaring lustily under their respective boilers. The times were cast off within a minute of each other, and the two tugs raced down the bay through the darkness and fog.

Both Hicks and Flaherty had grown old in the towboat service and the rules of the road rested lightly on their minds. They were going over a course they knew by heart—wherefore the fog had no terrors for them. Down the bay they raced, the *Booga* leading slightly, both tugs whistling at half-minute intervals. Out through the Gate they nosed, making a wide detour around Little Rock and the Seal Rocks, swinging a mile to the south of the position of the *Maggie*, and then came cautiously up the coast, whistling continuously to acquaint the *Yankee Prince* with their presence in the neighborhood. In anticipation of the necessity for replying to this welcome sound, Capt. Gibney and Mr. Gibney had, for the past two hours, busied themselves getting up another head of steam in the *Maggie*'s boilers, repairing the whistle and splicing the wires of the engine-room telegraph. In the wise men they were, however, they declined to sound the *Maggie*'s siren until the tugs were quite close. Even then, tugs were quite close, but needs must when the devil drives, so he pulled the whistle cord and was rewarded with a weird, mournful grunt, dying away into a wisp.

"Sounds like she has the pip," Jack Flaherty remarked to his mate. "Must have taken on some of that dirty Asiatic water," Dan Hicks soliloquized, "and now her tubes have gone to glory."

Immediately, both tugs kicked ahead under a dead slow bill, guided by a series of toots as brief as Mr. Gibney could make them, and presently both tug lookouts reported breakers dead ahead. Whereupon Jack Flaherty got out his largest megaphone and bellowed: "*Yankee Prince*, ahoy!" in his most approved fashion. Dan Hicks did likewise. This irritated the avaricious Flaherty, so he turned his megaphone in the direction of his rival and begged him, if he still retained any of the instincts of a seaman, to shut up; to which entreaty Dan Hicks replied with an acidulous query as to whether or not Jack Flaherty thought he owned the sea.

For half a minute this mild repartee continued, to be interrupted presently by a whoop from out of the fog. It was Mr. Gibney. He did not possess a megaphone so he had gone below and appropriated a section of stovepipe from the galley range, a bright piece of cardboard and produced a makeshift that suited his purpose admirably.

"But that hickster like a pair of old women and tend to your business," he commanded. "Get busy there—both of you, and shoot a line ahead. There's work enough for two."

Another installment of this retelling of the Three Musketeers of the Sea will appear in tomorrow's Times. Watch for it.

## POISON LIQUOR DEATHS MOUNT

Authorities Begin Move to Halt Sales

One Reputed Purveyor Held in Buffalo

Radiator Alcohol Dispensed as Whisky

BUFFALO (N. Y. July 27. (P.)—The death toll from the flood of poison liquor in Western New York and Ontario today had mounted to thirty-eight as the legal machinery of the sections affected moved to punish the vendors responsible for the tragedy.

The high spot here was the surrender and arrest, on a charge of first degree murder, of James C. Voelker, alleged distributor of poisonous liquor which caused several deaths in Buffalo. Voelker, who is reputed to have grown wealthy in

## SERGT. JIGGS ENDS "SICK LEAVE"

Ranking Canine Mascot of Marine Corps Recovers From Too Great Fondness for "Come and Get It" Call and Goes Back to Duty

WASHINGTON, July 27. (P.)—The "sick leave" of Sgt. Maj. Jiggs, canine mascot of the United States Marine Corps, is over and he has gone back to active duty.

Of all the calls in the bugler's repertoire, it seemed Sgt. Jiggs liked best that which is known as "come and get it." The result was that he was rushed by airplane from Quantico several days ago to a veterinary hospital here, suffering from intestinal disorders.

Jiggs "enlisted" when he was presented as a puppy to the corps by Brig.-Gen. Butler. He was promoted to sergeant in recent years, steadily refused to discuss the situation.

More than twenty persons are under arrest in this state and Ontario. Frank J. Hale of Washington, chief of the alcohol regulation division, left for New York to seek the man from whom Voelker purchased the alcohol he is alleged to have distributed.

Two years ago from sergeant to sergeant-major by former Secretary Danby of the Navy. His regulation service and health record, filed with those of his buddies, show that he is just completing his second four-year "cruise."

Restriction to a malted milk and egg diet while in the hospital served to overcome the illness and he departed in the company of Sgt. Misenberg, athletic mess caterer, for Philadelphia, where his seventy-pound presence and unbecoming countenance are needed to cheer on the marine baseball team in a three-game series.

Federal authorities described this man as "the big distributor who gets it direct from Germany."

Word came from Toronto that Provincial Police had learned that the poisonous liquor that caused eight deaths in the province arrived in an Ontario town secreted in a car of coal.

The alcohol, according to Federal officers, was of the type used in automobile radiators. They said there was no known method of rectifying or redistilling it to remove the poison and asserted it was the failure of the bootleggers in their efforts to make it fit for human consumption that caused the deaths.

## EPIDEMIC LEADS TO SUICIDES

Pellagra Said to Ravage Bessarabia Where Poverty is Extreme

BUCHAREST, July 27. (Exclusive)—A widespread and so far unchecked epidemic is reported to be ravaging Bessarabia causing many suicides among the poorer peasantry. In the district of Balta alone the day's casualties were two women and three men who hanged themselves, unable to endure the disease's maddening pains.

The Bessarabian peasantry, whose poverty is extreme, despite the natural richness of the province, can afford little nourishment in addition to the national Rumanian diet of mamaliga, a crude, doughy bread made of corn meal boiled in water. Pellagra results from excess of this bread and these contagious epidemics are not uncommon in Rumania, usually breaking out in the under-nourished districts. The abdominal agony the patients suffer often leads to insanity.

The sanitary authorities are being criticized for not taking action despite the daily reports of suicides and the further spread of the epidemic.

Victor in Life's Race  
Life is a test of fitness. In running his race a man should be able to pass the winning post with head up, heart light, eye clear and conscience at peace. If he can do so he is not "one who also ran," but the captain of his own destiny.—(Grit.)

IF YOU want a vacation that combines both pleasure and education, by all means include Longview, Washington, the new industrial city of the Pacific Northwest. Longview is in the heart of vacation land—about 40 miles over a famous scenic highway from the Pacific Ocean; located on the beautiful Columbia River; surrounded by mountains; near wonderful fishing places; beautiful scenery in every direction; the exceptional hotel accommodations; cool nights and pleasant days; an evergreen land; a city not yet four years old teeming with life and industry; 114,148 people; 100 boats; take either Columbia River Highway or Pacific Highway. Longview is 30 miles northwest of Portland and 133 miles south of Seattle. Consult automobile guides and railroad representation.

For further information address Dept. 147 THE LONGVIEW COMPANY Longview, Washington.

## Why not Smoke the Finest?

25¢ for Twenty To be had everywhere

## ANTI-RED CHAIN CIRCLES RUSSIA

Chiefs of All British Secret Service End Parley

Continuous Line from Egypt to India and China

Afghanistan Only Weak Spot, English Assert

LONDON, July 27. (Exclusive)—Following a conference of the chiefs of the secret services of all the British dominions, just concluded in London, the British colonial and India offices feel assured that with the exception of Turkey and Hindustan the whole southern part of Russia is encircled by a series of states determined to oppose the attempts to spread Red propaganda.

These states, it is announced, are united in a continuous, unbroken offensive from Egypt to India and China. It was further announced that Sir Charles Tegart, Calcutta police chief, has been appointed to head the propaganda of Scotland Yard for the next five years.

## SUDAN CHIEF QUILTS

In Egypt the Governor of Sudan, who was most friendly with the extremists, quit when he was faced with strong opposition and England now is prepared to withstand Red propaganda there. In Hedjaz, Sultan Ibn Saud has turned down all offers from his northern neighbor, Mesopotamia, is unwilling to tolerate any interference from the propagandists.

The Persian difficulties were great, but owing to the recent trouble in Northern Provinces, which have been swayed by Russian influence, the new shah, Rihia Khan Pehlevi, has been asked for and has given assistance to the commercial interests of Persia.

The Anglo-Persian Oil Company up till now could not compete with the products of the Russian wells at Baku. However, the opening of new fields in Kazakhstan, the Anglo-Persian Company to supply oil at even cheaper rates and the Russian government in exchange for substantial financial returns, hereafter will buy their products from the British such as Rihia Khan can put down the opposing forces with a stern hand.

Afghanistan is the only weak link in the anti-Red chain around Russia. Here Russia is firmly entrenched in political circles around the stern Emir, who possesses an air service of vintage planes, constituting a menace to the Indian frontier beyond Afghanistan, in the states of Kashmir and Baluchistan. The British have called in the British officers to organize the resources of his state.

## FORESTRY GUARDS

Most of his efforts to combat the Red propaganda in the employment of British officers and former sepoys as forestry guards in the deep woods in the region of the border as a result of which the infiltration of Red propaganda across the border running contiguous with the new Asiatic, Soviet and Moslem republics has been stopped.

The Singapore legislative council has granted the government emergency powers to control the movements of all undesirable and agitators, and Dutch East India has fallen into line, expelling those who join the Communist party or who are members of the Indian Communist organization.

## Two Grandsons of Oil King Win Seamen's Praise

NEW YORK, July 27. (Exclusive)—They're regular fellows, you bet! That was the comment by officers of the U.S. American Trader, of the American Merchant Line, when the vessel, from London, docked at Reo street.

The regular fellows were two sons of John D. Rockefeller, Jr., John D. III, 20 years of age, and his brother, Nelson Aldrich Rockefeller, 18, who stepped down the gangplank and were whisked away to their homes. They went aboard six weeks ago.

Although the youths' names were kept off the passenger list they had not been aboard ship an hour before they were recognized. They mixed with the other passengers, remained up as late as any one else and showed magnificent appetites, the stewards said.

From top to bottom the youths examined the ship, studying the machinery and the methods of navigation.

## EX-ANGELENO ASSERTS HIS WIFE WHIPPED HIM

RENO (Nev.) July 27. (Exclusive)—Testifying his wife preferred her mother to him, and lashed him with a dogwhip when he objected to the continued presence of the older woman in their home, Henry J. Clark, former Los Angeles resident, obtained a divorce from Gertrude Lee Clark in the local District Court. The husband said his mother-in-law constantly provoked strife in their household, and drove her daughter to chastise him. He declared his wife was a strong, massive woman, and that he was not able physically to protect himself from her abuse. A property settlement was effected out of court.

## BOOTLEGGING TAXABLE

London Judicial Committee Rules on Case in Canada

LONDON, July 27. (P.)—Bootleggers must pay Dominion income tax, the same as persons engaged in lawful business, according to a decision of the judicial committee of the Privy Council handed down today.

The decision was on the appeal of the Canadian Minister of Finance against the decision of the Supreme Court of Canada in the case of Cecil B. Smith of Windsor, Ont.

The appeal was allowed and the respondent, Cecil B. Smith, was ordered to pay the costs of the appeal.

## LOCAL MANAGER NAMED

NEW YORK, July 27. (Exclusive)—Announcement is made at the New York executive offices of the Graybar Electric Company of the appointment of A. B. Vanderhook as assistant manager and H. T. Simmons, as sales manager of the Los Angeles distributing house of the company. These appointments, the announcement adds, are effective as of the 1st inst.

## A BIGGER, BETTER CLUB!

**BEACH CLUB**  
A YACHT HARBOR AT ITS BACK DOOR  
BEACH UNIT and Superb Club Building

Here is the Ultimate in Beach Clubs. Combining the finest features of all that have gone before—

Affording ideal bathing and social opportunities in one of the really desirable, clean, safe sections of the entire coast line, which can never become crowded—

Located just in front of the great proposed Los Angeles Yacht Harbor site, which will make this district the most talked of portion of the seashore—

And providing an architecturally superb, height limit Club Hotel Building, in addition to the distinctive beach unit which will be under construction soon—

The Las Olas Beach Club positively presents to you and your family the outstanding beach club opportunity of all.

The property is owned outright by the club. The \$350,000 beach unit of concrete and steel will be one of the finest in California.

Club and Beach unit will provide ballrooms, dining-rooms, ladies' and men's lounges, guest rooms, sun rooms, card rooms, billiard parlors, gymnasium, lockers, dressing rooms, plunge, showers, hair dryers, eplanades, roof gardens and other facilities and equipment necessary for a high class, fully equipped and modern club.

## CHARTER LIFE MEMBERSHIP ONLY \$100—NOW!

No Dues—No Assessments

Membership prices will advance automatically as each series is sold out, so secure your charter life membership now, which is non-assessable, non-lapse, and which will provide for you the most enjoyable year around recreation possible. Invest with your check for \$100—or fill in the SHIP COUPON for further information.

Note: The Las Olas is and always will be an ideal, family type Beach Club. This beach can never become crowded, due to the limited amount of land in the area, making the parking of numerous automobiles impossible.

LAS OLAS BEACH CLUB, 2833 2833 Insurance Exchange Bldg., Los Angeles, California

Enclosed check for \$100 for Membership on Founder Charter Roster before over-subscribed.

## Rancher Makes Grave Charges in Divorce Suit

SAN BERNARDINO, July 27.—Making the direct charge that his wife, Jewel, eloped with Ben Ary, church treasurer, last March, William E. Brown, Redlands rancher, today filed suit in the Superior Court for divorce.

Brown's statement in the divorce complaint is the first open charge that his wife, a choir singer, and Ary eloped, although they were reported missing from their homes on the same day, and were objects of a joint search conducted throughout California by Sheriff Shay.

Three weeks after her asserted disappearance, Mrs. Brown returned alone. Naughtily and indignantly, the attractive Mrs. Brown denied she had fled with Ary, who she described as "just a good friend."

In the divorce suit, however, the husband asserts that she not only left her home with Ary, but had previously carried on a clandestine romance with him.

Mrs. Brown was guilty of "gross indiscretions" before the asserted elopement, the husband charged, adding that she entertained Reuben Best, a Redlands business man, at her home while her husband was away on business. She frequently called Ary on the telephone, Brown asserted, and arranged secret meetings.

Public Excluded from Preliminary Trial in Phoenix

PHOENIX, July 27. (Exclusive)—An entire day was consumed in the preliminary hearing of Mrs. Gladys Lane, charged with murder in connection with the death of Dr. John P. Reed, for whose shooting her husband already has been held without bail for trial in the Superior Court. County Attorney Laprade brought

in nine witnesses for the State, seeking to establish that the woman was an accessory before the fact. Efforts are being made to corroborate Reed's statement that he was expected to be tried by testimony that he failed to stop the engine of his automobile.

The hearing, from which the public was excluded on motion of the defense, will be continued. The defendant, attractively groomed, when taken by the Sheriff to the courtroom, was smiling and apparently confident that her troubles would not be long continued.

## COURT ADJOURNS IN RESPECT TO LAWLOR

SACRAMENTO, July 27. (P.)—The Third District Court of Appeal today adjourned out of respect to the memory of the late William P. Lawlor, associate justice of the State Supreme Court, who died in San Francisco Sunday night after a long illness.

## Machine Gun to be Used in Crabbing

HAMPTON (Va.) July 27. (P.)—Virginia fishermen are to use machine guns in crabbing, according to a statement by the state fish and game commission.

The commission said that the use of machine guns in crabbing was a new method of catching crabs, and that it was being used by a few fishermen in the state.

The commission said that the use of machine guns in crabbing was a new method of catching crabs, and that it was being used by a few fishermen in the state.

HAMPTON (Va.) July 27 (P)—  
 Virginia fisheries patrol boat  
 guerrite will mount a machine gun  
 hereafter as a result of the  
 which has existed between Mary-  
 crabbers and Virginia officials  
 Chesapeake Bay since 1924.  
 Commissioner of Fisheries Earl  
 R. Houston authorized the equip-  
 ment of the weapon today because  
 Marylanders fired last year upon the  
 vessel when she sought to pre-  
 vent them from taking crabs from Vir-  
 ginia waters. The commander of the  
 Commodore Maury, flagship of the  
 Virginia fleet, which has been  
 sent to help maintain order, has re-  
 ported that quiet prevails now in the

**HEAD OF GLOBE GRAIN RETIRES****W. E. Keller Resigns After Lengthy Service****Stockholders Told of Move at Annual Meeting****O. H. Morgan on Program as Successor to Post**

At the annual stockholders meeting of the Globe Grain & Milling Company held yesterday, W. E. Keller, president of the company, retired from that executive position after thirty-four years of active service with the company and its predecessors, the last twenty-seven years as its president.

O. H. Morgan, second vice-president, will be chosen to succeed Mr. Keller as president of the company at a meeting of the board of directors to be held at the company's offices tomorrow, it was stated. Mr. Keller will continue on the board of directors, and will retain the presidency of the Globe Grain & Milling Company and other interests with which he has been identified for years.

"Mr. Morgan, who will succeed me as president," Mr. Keller said, "has been with the company and its predecessors since July, 1908, for some years past as vice-president. He is in every way qualified and I am sure the company will prosper under his management."

In the fiscal year ended June 30, last, the company showed the best financial results in six years. Net earnings, after all charges including depreciation, amounted to \$433,282.43, as compared with \$438,896.11 in the preceding year, an increase of \$5,613.68. Current assets were reported at \$4,783,230.25, and current liabilities at only \$46,823.03, giving the company a net current position of \$4,736,407.22. This compares with current assets of \$3,968,199.64, current liabilities of \$1,892,838.31, and net current assets of \$1,985,361.33 at the end of the preceding year.

This is by far the most favorable statement that the Globe Grain & Milling Company has shown in the past six years," Mr. Keller told the stockholders. "The marked contrast to the statement rendered at the close of the readjustment period, when on January 1, 1921, the company had an indebtedness of \$6,900,000. Since that time the company has paid dividends without interruption on its first and second preferred stock, and in addition has been able to retire \$1,000,000 of its original issue of \$2,000,000 first preferred stock, leaving at the present time only \$2,000,000 outstanding."

The following board of directors was re-elected yesterday for the ensuing year:

W. E. Keller, J. B. Alexander, O. H. Morgan, W. O. Nevin, C. A. Fellows, W. O. Nevin, C. A. Leonard, Dan Murphy, Marco H. Hellman, Irving H. Hellman, A. Bernstein, Mark McPhee, Andrew Young, W. D. Whelan, W. H. Daum and W. H. Comstock.

**CASH REGISTER NET PROFITS DECREASE**

NEW YORK, July 27. (AP)—Consolidated net profit of National Cash Register Company for the half-year declined to \$3,187,560 from \$3,670,781 in the first half of 1927. Under the participating provisions of the stock, this is equal to \$2.11 a share on the combined "A" and "B" shares, against \$2.88 a share a year ago.

Only two cast iron pipe awards were noted. The U. S. Cast Iron Pipe and Foundry Company booked 318 tons for Sacramento and B. Nicol & Co. secured 200 tons for work in San Diego. Pending business calls for 2300 tons. Grinnell Company secured 995 tons of Matheson joint pipe for the Hatch-Mexico project at San Francisco. The Pacific Gas and Electric Company, San Francisco, has closed on 100 tons of standard pipe.

**RAIL REVENUES GAIN**

NEW YORK, July 27. (AP)—Total operating revenues for the Chicago and Northwestern Railway for June were \$14,225,874 as compared with \$12,522,933 for the same month last year. Total operating expenses were \$10,118,835, while those for June 1927, were \$9,841,225.

**AWARDS OF STRUCTURAL STEEL LEAD****Buying of Shapes During Week Heaviest on Coast in Two Months****BY DON PARTRIDGE.**

Associate Editor, "Western Construction News"

Structural steel shape awards featured the market with over 2500 tons booked. While movement of other forms of steel products was fair, the bulk of the business was comprised of jobs of less than 100 tons. During the week 9800 tons of foreign cast iron pipe, shapes, wire, plates and merchant and reinforcing bars arrived in Pacific ports.

No large concrete bar awards were noted, but over 5000 tons are now up for figures. New inquiries call for 500 tons for the Mission Junior High School, San Francisco, and 200 tons for the Medical-Dental Building, Stockton. Foreign reinforcing bars are now being quoted from 1.20 to 1.25 c.i.f., the usual quotation being 1.20.

Demand for steel plates has fallen off somewhat during the past few weeks. Pending business, however, involves over 5000 tons. No awards in excess of 100 tons were noted. New inquiries include 1400 tons for a pipe line at Laguna Beach and 800 tons for a pipe line in Honolulu. No award has been taken on the inquiry of the Southern Pacific Company for ferry boats involving 4000 tons. Prices are firm from 2.30 c.i.f. to 2.50 c.i.f.

More structural shape awards were placed this week than in any other week during the past two months. Awards totaled 2610 tons. Included among these were 800 tons for the Los Angeles Investment Company Building, Los Angeles, placed with Union Iron Works; 600 tons for the State armory, Los Angeles, booked by Minnesota Steel and Machinery Company; 400 tons for a police station in Los Angeles, secured by Brombacher Iron Works; 275 tons for the Osteopathic Hospital, Los Angeles, awarded to Chicago Bridge and Iron Company; and 310 tons for a bridge for the Southern Pacific Company in Klamath, Oreg., booked by McCoy Dry Dock Company. New inquiries call for 3000 tons for a hotel at Santa Monica and 300 tons for a theater in Berkeley. Total pending business exceeds 12,500 tons. Prices are firm at 2.30 c.i.f.

Only two cast iron pipe awards were noted. The U. S. Cast Iron Pipe and Foundry Company booked 318 tons for Sacramento and B. Nicol & Co. secured 200 tons for work in San Diego. Pending business calls for 2300 tons. Grinnell Company secured 995 tons of Matheson joint pipe for the Hatch-Mexico project at San Francisco. The Pacific Gas and Electric Company, San Francisco, has closed on 100 tons of standard pipe.

**RESERVE BANK REVIEW OUT****Business Record for First Half of 1926 in Twelfth District Shows Increase Over 1925**

Fluctuations in volume of trading during June were largely seasonal in character and general business activity in the Twelfth Federal Reserve District continued at the level of the preceding three months, according to the monthly report of Isaac B. Newton, chairman of the board and Federal Reserve agent of the Federal Reserve Bank of San Francisco.

The business record for the half-year ended June 30, last, when compared with the record for the corresponding period of 1925, showed an increase in trade volume and business activity which exceeded the normal expectations based on growth of population and development of natural resources of the district.

Banking statistics at the close of the half-year reflected a strong credit situation. Crop conditions and prospective yields at mid-July were, with few exceptions, better than in 1925, a favorable circumstance partially offset by the slightly lower level of prices for agricultural products this year. Industrial activity increased seasonally during June and, as indicated by figures of production and employment, was above the level of June 1925. Value of building permits issued during June and July, 1926, was 73 per cent less than in June, 1925. The value of building permits issued during the first six months of 1926 was slightly smaller than the value of permits issued during the first six months of any of the three preceding years.

During June, 1926, reporting lumber, mills of four associations in this district cut more than \$50,000,000 worth of lumber, the largest output reported for any single month in the last four years. Figures of production, shipments, and new orders received, were all above those of the corresponding months of 1925. The increases averaging approximately 4 per cent as compared with the previous month, and 10 per cent as compared with a year ago.

Production of petroleum in California increased slightly during June, but daily average production was less than in June, 1925. Production of oil, as reported by sixteen mill companies in this district, increased seasonally during June and, as in April and May, approximated the average for the first six months of 1925. Stocks of both four and wheat held by millers at the end of June were below the five-year averages for corresponding months. The district's canned fruit industry operated at high seasonal levels during June and early July. Prospects indicate a record for the year. The district's canned fruit industry operated at high seasonal levels during June and early July. Prospects indicate a record for the year. The district's canned fruit industry operated at high seasonal levels during June and early July. Prospects indicate a record for the year.

During June, 1926, reporting lumber, mills of four associations in this district cut more than \$50,000,000 worth of lumber, the largest output reported for any single month in the last four years. Figures of production, shipments, and new orders received, were all above those of the corresponding months of 1925. The increases averaging approximately 4 per cent as compared with the previous month, and 10 per cent as compared with a year ago.

STOCK MARKET TREND UPWARD

Series of Favorable Reports Factor in Advance

General Motors Features by Scoring New High

Activity Centers Chiefly on Dozen Industrials

NEW YORK, July 27. (AP)—Fueled by a series of favorable foreign and domestic financial news developments, speculation for the advance continued to mark up prices to a slightly larger scale than yesterday, but public participation was again in small volume. Only one situation continued in plentiful supply, despite the increase in brokers' loans reported by the New York Federal Reserve Bank.

The most important business development of the day was the quarterly report of the United States Steel Corporation, showing net earnings of \$47,410,000 in the three months ended June 30, as against \$45,081,281 in the previous quarter and \$40,624,221 in the second quarter of 1925. The first half year's earnings were therefore \$1.08 a share, the full year's dividend requirements, in accordance with previous expectations, only the regular dividends were declared. U. S. Steel common stock, closed a point higher at 140.

NEW HIGH SCORED General Motors was the outstanding individual feature of the day, touching a new record high for the first time at 173 on total transactions of over 170,000 shares, or approximately one-sixth of the day's entire volume of business. The stock slipped but at the close to 171 3/4, up 1 1/4 at the day. Nash closed a point higher, and Pierce-Arrow preferred moved up nearly 2 points, but most of the other motors showed mixed fractional changes, although several had recorded extreme gains of 1 to 1 1/2 points in the early trading. Dupont, which has large General Motors holdings, closed 4-8 higher at 94 1/4.

From an international standpoint, the principal development of the day was the vote of confidence given the new French government by the French Chamber of Deputies. The vote reflected in a rally of the French franc above 2 1/2 cents. In banking quarters, however, there was a tendency to await the Chamber's action on the new finance bill before making judgment on the probability of a change.

WALL STREET PARAGRAPHS

Activity of High-Priced Specialties Features Day's Trading

NEW YORK, July 27. (Exclusive)—A renewed outburst of bullish enthusiasm in the industrial stocks discouraged the professional element that has been working to bring about a decline since early last week, and the market made and held substantial gains today. Generally speaking, trading was not so insistently active and public interest in stocks seemed to be at low ebb. At the same time the professionals were trading lightly until after the quarterly meeting of the Steel directors. The high-priced specialties were given the most attention and some new high records were established. The sudden upturn in General Motors, which carried that stock to a peak about 177 1/2, was the signal for a series of spasmodic dashes in some of the other industrials. Peak quotations for the year were made by Butte, American Can preferred, Texas Gulf Sulphur and Chicago Pneumatic Tool. Steel common acted confidently.

General Motors Ante Railed New and spectacular heights are being freely predicted for General Motors, which has been one of the most phenomenal performers on the stock market since this time two years ago. People who are supposedly close to the inside and who predicted a peak of 140 for the stock are selling around par, later raising the ante to 175, a goal now in sight, are currently expressing confidence that the stock before long will be established above the 200 level. The premier performer of the motor

group retained its grip on that title throughout today's session. A spread opening involving 8000 shares lifted it sharply to new record high levels and subsequently, in continued enormous volume of trading, the stock extended its carry to 177 1/2.

Allis-Chalmers Unfettered Orders That the floating supply of a good many stocks has been materially reduced during the last few months was apparent in the case of Allis-Chalmers today. Attention was attracted to that stock upon the appearance of its operating statistics for the first half of the year, which proved entirely satisfactory. Earnings applicable to the stock were approximately the same as in the corresponding quarter last year, and the same held true for new record high levels with the first six months of 1925. What was more important, however, was the showing in unit volume, which was as high as in the corresponding high operating ratios and correspondingly large profits over the balance of the year.

Oil Stocks Stronger For the first time in about two weeks oil stocks today made a display of strength. Atlantic Refining was the leader in the upturn. The improvement in the buying was no doubt due largely to reports from the Midcontinent district that wholesale gasoline had advanced higher prices in that territory. The report of the Barnard corporation showing \$2.77 a share earned the combined A and B stocks in the first half of this year, against \$1.34 a share in the same period of 1925, no doubt also important.

Rock Island's Record Jump Net operating income of the Chicago, Rock Island and Pacific last month, amounting to \$2,238,803, was the best for any June in the last ten years, the highest net of 1925 to date and the best since October, 1925. The increase over June, 1925, was \$1,094,529, or 50.1 per cent. As a result, the net operating income for the first half year rose to \$8,958,088, or 15.1 per cent higher than that of the like period of 1925. The ratio of operating expenses to gross revenue was 70.7 per cent, contrasted with 72.4 per cent last year. This reduction in operating expenses, particularly in cost of transportation, is traced to the expert hand of the new chief executive, who became chairman of the Rock Island after the St. Louis-San Francisco acquired a large stock interest in the western carrier. Considered in conjunction with the bright business outlook, Rock Island's earnings suggest that this year's income will be greater than \$7 a share on the common stock.

Technical Position Strong The action of the market since the resumption of trading yesterday has done much toward restoring confidence that was somewhat shaken by the reactionary trend of last week. From all indications, cliques and pools, which had been disposed to stand aside temporarily, have taken heart again, on the theory that such selling as developed last week went a good way toward removing such technical weaknesses as might have existed. The consensus of opinion just now seems to be that by far the bulk of the selling recently, including the anxiety over the French situation, was for the short account. With the new regime having received a vote of confidence from the Chamber, that situation was somewhat relieved, and sponsors for various stocks returned to their tasks with a will. While the short interest is by no means as extensive as at times earlier in the year, it is, nevertheless, substantial enough in the opinion of many to provide a fair amount of buying when necessary.

A university in Scotland has received a request from its students not to issue diplomas in Latin because, they said, the graduates wish to read them.

THE INVESTOR J. R. Warner, Bankers Trust Company's Railroad Expert, Tells Why Carrier Stocks Should Attract Investors—Predicts Attainment of 5% Per Cent Objective Soon

NEW YORK, July 27. (Exclusive)—J. R. Warner of the Bankers Trust Company recommends the purchase of railroad stocks by investors and gives some sound reasons for his belief in their future prosperity. He has constructed a consolidated income account of a group of carriers operating approximately 86 per cent of the railroad mileage in the United States and normally producing 90 per cent of the net operating income of the Class I roads. The results as shown are far better than might generally be expected.

Mr. Warner starts off by saying that the carriers have not only regained the efficiency lost through the war and postwar periods, but are actually establishing new records. He adds: "Since the close of the year the trend has continued so distinctly upward as to offer a good prospect of the roads attaining the objective of 5-4-4 per cent in the near future, provided business holds at a reasonably satisfactory level and wage increases do not absorb all of the improvement in net earnings that is taking place."

DIFFERENCE IN KIND "Although the carriers in the aggregate failed in 1925 to reach the stipulated 5-4-4 per cent, this should not discourage investors in equity securities from entering the railroad field, as there is a distinction between earnings on railroad property and earnings on stock of railroad corporations."

In spite of the difficulties under which they have had to operate in recent years, not only have many individual companies earned considerable profits and the comparatively low average rate of interest on their funded debt, have earned considerably more than 8 per cent on the increase in amount of their common stock."

The consolidated income account shows that the carriers in 1925 earned 10 per cent on their combined preferred and common stocks, after substituting the bonds of companies in the hands of receivers for their stocks. As Mr. Warner points out, the exclusion of such a large amount of stock from the picture, however, proves the showing; but as the equity of stocks of companies in receivership is uncertain, this treatment does not appear to be entirely arbitrary for the present purpose.

In view of the wide disparity between the dividend-paying issues and the nondividend-paying, an analysis has been prepared showing the results of these two classes separately. This analysis brings out that 18 per cent of the carriers in 1925 on common stocks of companies on which dividends are paid, while earnings on nondividend-paying common stocks in the same year amounted to only 4 per cent.

MANY NOT INCLUDED Mr. Warner says that this striking showing should not be misrepresented as an indication that the carriers have been overgenerously treated with respect to earnings. He adds: "Not only does this picture exclude more than \$300,000,000 per value of common stocks of companies now in receivership, a large part of which was sold at par for cash, but it also naturally does not give any consideration to the uncounted millions of stock wiped out in past reorganizations."

Discussing the prospects for this year, the expert says: "Net earnings after charges for the first four months of this year were more than \$25,000,000 in excess of those in the corresponding period of 1925. It is probable that this rate of increase can be maintained throughout the year. It is pertinent to note, however, that it requires only \$4.75 per cent to add an additional 1 per cent to the rate of earnings on the combined total of preferred and common stocks owned."

LAMB CROP OF WEST HIGHER An increase of about 2,300,000 head or about 10 per cent in the size of the 1926 lamb crop of the country over that of last year is shown in the lamb survey just issued by the Department of Agriculture. The increase is due to an increase of 2,350,000 of 16 per cent in the crop of the Western States being about 138,000 or 2 per cent smaller than in 1925.

Unusually favorable conditions on the range for the past six months and a decrease of nearly a million breeding ewes are responsible for the large increase in the lamb crop of the Western States. The lamb crop in these Western States is about 88 per cent of ewes of breeding age on January 1, last. In 1925 it was estimated 79 per cent lambs were saved or docked compared with 82 per cent in 1924. The number of lambs saved or docked this year is placed at 16,879,000, compared with 14,420,000 in 1925.

The Western States had 27,563,000 sheep on January 1, last, of which 25,201,000 were stock sheep. Of the stock sheep, 73.3 per cent or 18,480,000 head were ewes of breeding age and 4,200,000 head of ewe lambs, coming yearlings. On January 1, last, there were 24,539,000 sheep of which 24,075,000 were stock sheep, 73.3 per cent of the stock sheep were breeding ewes making 18,199,000 head and there were 4,031,000 head of ewe lambs, coming yearlings.

Range conditions during the past year have been unusually favorable resulting in light losses and the loss for the first six months of this year were placed at 3.3 per cent compared with 4.7 per cent for the same period of 1925. Sheep losses in 1924, 1925 and for the first half of this year have been below normal.

Lambs over the country are reported to be in very good to excellent condition. They have made a good growth and the lambs from the Southwest will be heavier than last fall and the fall run from the Northern States east of the Continental Divide will be in good flesh and about the same weight as in 1925.

last year, and for the six months rose to \$14,458,000, from \$3,742,244 for the first half of 1925. The half year's gross gained more than \$15,000,000.

COTTON MARKET NEW YORK, July 27. (Exclusive)—The cotton market today showed a tendency to react from the advance of Monday and Saturday, due to most of the short interests having been driven in on yesterday's rise, and the conservative attitude shown by spinning interests here and abroad toward following up prices with new purchases from this level.

Many buyers were in advance of about 150 points on the general list, and 200 on October from the low levels, when the government report was issued on the 2nd inst., discounts must be made of the damage reported by local and Southern bulls since the last government report of Friday, which was completed by the 15th inst.

Accordingly considerable pressure of profit taking resulted here and at Liverpool regardless of the further reports concerning the hurricane in Southern Florida. The Weather Bureau's reports indicate the storm will move up along the northeast coast of Florida tonight and advance to the Georgia coast tomorrow. Wind at fifty to sixty miles an hour, however, is not high for the destructive hurricanes.

In view of the possibility of the storm moving out to sea and with clearing weather over the Western States, forecast for tonight and tomorrow, sentiment among local and New Orleans bulls was less conservative today, especially as to the recent good advance.

Prices went off 20 to 25 points from yesterday's close. This brought October contracts down to 17.61; December 17.52; January 17.50; March 17.70, and May 17.7-8c, a decline of between 35 to 40 points from the high of early yesterday. A rally of about 10 points in the later trading resulted from fresh local buying.

Liverpool cotton futures closed with a net decline of 4 to 5 of their points on the day, against 1 to 3, due.

CANADIAN RAILWAYS EARNINGS INCREASE NEW YORK, July 27. (AP)—The first half of 1926 was unusually prosperous for the Canadian National Railway. Net earnings for June after expenses, were \$1,941,077 in contrast to deficit of \$432,378 in June of last year.

BUSINESS PHILOSOPHY BY WILLIAM FEATHER

FAILURE to understand the true relation of upkeep to the initial investment is almost identical with the confusion that exists between the relation of quality and price.

The industrial world is gradually learning that price is only one factor in cost.

It is the first but not the last factor.

A machine which is simple in construction, and has few parts to get out of order, is finally cheaper than one that is complicated and has many parts to go wrong, and even though the first cost of the simple machine is higher.

Once we become owner of anything, it is the very worst form of economy not to protect our investment by giving it our best attention to insure its proper functioning throughout life.

Analyzing YOUR Investment Needs

Every investment recommendation of the CALIFORNIA COMPANY is based on a careful analysis of our clients' present holdings and peculiar needs. A bond must be sound, it must be well secured, and it must also be suited to the requirements of the individual investor.

We believe you will find the facilities of this experienced organization of real service in the intelligent selection of your investments.

California Company BONDS 626 So. Spring St. Los Angeles

Insured Mortgage Certificates A National Security Issued by Mortgage Security Corporation of America

The loans securing these certificates are made on the basis of approximately 50% of the conservatively appraised value of the mortgaged property. The corporation specializes in loans averaging \$7500 on homes occupied by the owners. More than 95% of the loans are reduced by monthly amortization plans. This requires borrower to make monthly payment of stipulated amounts to meet principal and interest maturities.

Mortgage Security Corporation of America has a paid-up capital of over \$2,500,000. The Corporation underwrites loans in 29 states and in over 250 cities, giving numerical and geographical distribution.

The National Surety Company places its unqualified Guarantee on every Insured Mortgage Certificate issued, which assures the purchaser or holder thereof, that both principal and interest will be paid. The National Surety Company is the largest Surety Company in the world, having capital and surplus of over \$16,000,000.

[illegible][illegible]

England the old traditions have been preserved through the years and maintained the modern manufacturing spirit. Thus it is recorded that scattered throughout the country are many farms engaged in the manufacture of woolen goods, the industry existing from Anglesey in the north to the south coast of Devon. The main production is flannel. Real Welsh flannel has long had a world-wide reputation for its durability, and it is made from virgin wool grown in Wales.

Sheep are found in the northern and eastern parts of Wales in sufficient numbers to be as important as among the important branches of industry and agriculture of the country. The sheep are of many different sizes, depending on the elevation, latitudinosity, of sheep-rearing in England. It is a part of the development, therefore, of

Wid's important centers of such production.

The country of the world, it is said, pursues so many sheep for its use as Great Britain. The breeding sheep in England dates back well over 1000 years and from very early times these sheep have been throughout the United Kingdom. The blackfaced is pastured all the time in the mountains and moorlands right to the north of England. This is above the latitude Wales, but it is mentioned because the sheep are used in American mills and the Welsh mountain glags must be included in this category, except that they have been raised in the mountains of the production of Shropshire blood.

In the reign of Queen Elizabeth an Englishman was first permitted to present the exportation of sheep and exported wool long before the

the all some know how to weave  
— upon presence of this ac-  
miners were placed in the house  
Peters whereon the judges sat to  
or constantly in mind this source  
national wealth. As a result the  
Chancellor, who presides in the  
use of Florida, is said to "sit on  
woolstock" or to be "appointed to  
woolstock."

**GREAT TRUTH  
FEW KNOW ABOUT**

—

he "truest and most important  
truth in the world almost no one  
knows in: I am the only one preach-  
ing it and no one pays any atten-  
tion to me.

his great doctrine is that success  
comes by the culture.

the burden of all our machines is

to become a respectable and useful citizen is very difficult; that the use of superior force is the only way to success; that the world is full of sin and crime; that the superior man is compelled to be a lonely and constant battle with the meaner forces of the world; that the most common of all fallacies: there isn't a word of truth in it, nor a grain of common sense.

The natural truth is that the way leading to success is easier than the way leading to failure.—[E. W. Cresswell.]

**WEEKLY.**

**GOOD MEN ARE MOST AMIABLE.**

A good man has a certain amiability in talking to customers he displays a certain cheerfulness in something that is the acquisition of money for him as a man more deeply than any other thing, except a love affair.

There are women that a good man does not like that they should be so good.

...satisfied on meeting people every-  
 where in society, or on the street.  
 ...man can meet casually in a public  
 room a customer of true adven-  
 ture; he will become one or both  
 rapidly treated.  
 ...a fellow knows when there is a  
 respect in his audience.—[E. W.  
 's Weekly.

Rural Delicacy  
 ...tubs: Don't you think we ought  
 to have some of the things we  
 need?  
 ...Write: Well I won't like to  
 of the neighbors; they might  
 der it a hint that we want back  
 things they borrowed of us—

## GOOPS!

A Daily Lesson in Manners for Children  
BY GELETT BURGESS

(Copyright, 1928, by The Chicago Tribune.)

**BEING "BUSY."**  
A top, although it spins so fast,  
Never gets anywhere at last;  
So I've known children who  
pretend  
To work so hard! But, at the  
end,  
They're where they were at the  
beginning.  
Goops work like tops—keep  
merely spinning.

WHAT'S DOING  
TODAY

Los Angeles City Club luncheon meeting, clubhouse, 528 South Spring street, noon. Dr. Samuel Guy Inman will speak on "Relations With South America."

Magnolia Club of Los Angeles luncheon meeting, clubhouse, 628 South Grand avenue, noon. Max B. Goodell will speak.

## DEBT QUARREL DENOUNCED

London Press Calls Churchill's Controversy With  
Borah Futile and Dangerous

LONDON, July 27. (P)—The action of Winston Churchill, Chancellor of the Exchequer, in replying to a statement by United States Senator Borah concerning the Anglo-American debt settlement, has drawn an editorial rebuke from the London Times. The paper strongly condemns the "irregular, protracted and aimless controversy" between the two countries on the debt question.

The Times argues that plain speaking, even upon such a delicate subject, is not harmful as long as proper proportions are observed. "It may even do good," the paper continues, "if it reminds the American people that the British attitude on war debts differs in some essentials from that expressed in the policy of their own government. What is utterly futile, intolerable and even dangerous is to let a serious discussion degenerate into a bawling of words, a fusillade of mutual recriminations. Mr. Churchill has now gone so far as to make public what is one of Senator Borah's private letters. When things reach that point, it is really necessary to call a halt."

The gist of the Times' editorial is that the British debt to the United States has been settled on the only terms possible and that there is no good in trying to go back on the agreement. Assuming that there is a new dread of instability passing over Europe, the paper insists that the two nations which have vindicated their stability to undermine by petty controversy the basis of a practical agreement by which they mutually assure their prestige and marshal their joint forces against the common enemy of a world in great distress.

Senator Borah's statement, to which Chancellor Churchill made reply yesterday, said that the Chancellor was conducting a "campaign of vilification" against the United States and designed to obtain cancellation of the debt. Chancellor Churchill said that he invited the Senator to quote any passage from any speech or written statement of his justifying such a complaint.

Thoughtful  
A little boy went into a barber shop to have his hair cut. Seeing a barber chair empty he walked over and sat on the foot rest. The barber, who was sitting on the chair, said to the boy: "What are you going to do?"

A Child's Question  
"Mummy, is this a real vacation?"  
"Yes, dear."  
"Then God isn't watching us any more, is He?" (Boston Transcript.)

SOVIET TOUCHY ON TITLE  
Mail addressed to "Russia" is sometimes returned, as the soviet government insists on the use of the country's new name, "Union of Soviet Socialist Republics."

The Screen-Door Test  
A Rockville woman says you can tell whether a man is married by the way he goes through a screen door. If he closes the screen carefully and shoots off the line, he's married. (The House Tribune.)

WHALING IN EARLY DAYS  
The early day whalers endeavored to kill a whale by puncturing its lungs with a lance.

ODD RHEUMATISM CURE  
A popular belief in Wales is that rheumatism can be relieved by binding a split mackerel round the affected part.

IMPORTS CIGARET PAPER  
Egypt imports all the paper used in making Egyptian cigarettes.

OIL USED IN GASOLINE

## WOMAN SEIZED IN BRUSH FIRE

Sparks from Trash Pile Start  
Serious Blaze

Cottages Threatened and Ten  
Acres Burned

Quick Work of Two Crews  
Halts Greater Damage

Mrs. Lillian Reardon of 143 West Michigan Boulevard was arrested by Assistant County Forester Jesse Graves yesterday afternoon after a trash fire she is said to have lit in the back yard of her home got beyond her control and started a brush fire.

According to Graves only the fact that the La Cresenta branch of the county fire warden's office was within a stone's throw of the fire prevented a serious blaze. As it was it took two fire engines, one under Capt. Duncan and the other under Chief Baker, of the county fire department, and fifty men to bring the blaze under control. About ten acres of brush were burned over. Only fast work on the part of the fire fighters saved several cottages from the flames, Graves reported.

Mrs. Reardon, according to Graves, started the fire in the yard sparks ignited the brush. She was charged with lighting a fire without a permit and permitting a fire to get out of control.

Following the fire the County Forestry Department repeated its warnings about the handling of fires in or near vacant lots or near brush. No permits will be issued of starting fires of any kind in the La Cresenta district until further notice, Graves announced.

## Joos Assigned to Grand Jury Work by Keyes

J. W. Joos, for sixteen years a deputy of the District Attorney's staff, yesterday was assigned by District Attorney Keyes to handle cases brought before the county grand jury. For several years Mr. Joos was in charge of all red light abatement proceedings and was a member of the city and county parole boards. Previous to that he was in charge of all juvenile delinquency cases and failure to provide cases.

The assignment of Mr. Joos to grand jury cases, makes three deputies who will present matters to that body. The other deputies assigned to this work are E. J. Lickley and Bonner Richardson.

## GOODCELL IN TOUR OF SOUTHLAND

Gubernatorial Candidate  
Will Speak in Many Cities  
Near Los Angeles

A tour of cities bordering Los Angeles, including a speech at the Masonic Club of Los Angeles at noon today, will be made by Rex B. Goodcell, Republican candidate for Governor. This afternoon Goodcell will address audiences in Glendora and Azusa, following this with a dinner meeting in Monrovia at 6:30 o'clock, at which A. I. Mellenhuth, banker, will preside. In the evening, Goodcell will address a mass meeting in Pomona at the Y.M.C.A. Auditorium. Two meetings were addressed by Goodcell Tuesday evening, when he spoke before the Long Beach chapter of American Association of Engineers at Recreation Park and the Republican Club of Maywood.

Thursday will be spent in touring the San Fernando Valley, several speaking engagements having been arranged in the numerous towns of the valley. With an attendance of over 500 at the initial meeting a "Goodcell's Women's Club" was organized in San Francisco yesterday, according to word from San Francisco headquarters. The members include women voters representing clubs, fraternal societies and civic organizations.

The gathering was addressed by Roy Oliver, San Francisco attorney, Judge Thompson of Santa Clara and Mrs. Walter McElhin, noted club woman. Mrs. McElhin predicted a heavy women's vote for Goodcell in San Francisco and the bay cities, stating that his candidacy was gaining favor daily among women voters.

## Milo W. Bekins Given Honor by Warehouse Men

Milo W. Bekins, president and general manager of the Bekins Van and Storage Company, has returned from the annual convention at Mackinac Island, Mich., of the National Furniture Warehousemen's Association, of which he was chosen vice-president.

He reports that in the East there is more talk than ever about moving to California, and this interest is reflected in increased shipments of household goods westward.

## High School Benefit Tonight at Polytechnic

The Polytechnic High School Auditorium will be the scene of a benefit recital this evening. Grace Coffman Brewer, soprano, is to sing. The students of Polytechnic Evening School are arranging the musical program in order to aid pupils who wish a college education.

## MISS VENICE GUEST AT SEND-OFF DINNER

VENICE, July 27.—Aloha Porter, designated as Miss Venice, 1928, in a recent bathing-beauty competition, will be given a send-off dinner at the Ship Cafe Wednesday evening, on the eve of her departure for San Francisco to compete in the Miss California contest. The dinner is being given by the Venice Amusement Men's Association, and Tommy Jacobs, proprietor of the cafe.

## BOND BROKERS TRACE ANGELENO TO CHICAGO

Traced through the elaborate checking system in use by local bond brokers, Jack Stearns, alias Jack Price, was arrested in Chicago yesterday and will be returned here immediately to face trial on a Federal prohibition charge. According to officials of the Bertelson-Groves Company, who put up a \$1000 bond for the man, they then traced him after he failed to appear. Stearns was to appear in Federal court on the 31st. They found he had gone to Chicago and caused his arrest when he called or mail at the post office.

## Now She Can Rehire Gardener

Mrs. Kathryn Menjou

## MENJOU ALIMONY FIXED

Film Actor Must Pay Wife \$500 Each Week Until  
Hearing on Divorce Action

Mrs. Kathryn Menjou will have to struggle along on \$500 a week alimony until the suit of Adolphe Menjou for a divorce is tried in October, Judge Hubler ruled yesterday. The amount, she admitted, will enable her to rehire her gardener, whom she discharged recently. Since May 1 she has been without income, she declared.

## NORTH SEA VETERANS PLAN MEMORIAL FUND

According to advices received here by William C. Corning, a former officer of the North Sea naval forces, a nationwide group of veterans of overseas naval operations known as the North Sea Mine Force Association, will at once commence the creation of a memorial fund of \$500,000. The fund, which will be called the Mine Force Memorial Fund, will commemorate the work of the United States Navy in the North Sea during the late war, and will be used for the purpose of endowing and extending the work of the Northern Admiralty, a general hospital situated at Inverness, in the highlands of Scotland, where the mine-layers and sweepers based during the mining operations.

Questioning developed that by borrowing \$1000 from her counsel, Milton M. Cohen, and by letting the grocery bills run, she was enabled to retain her chauffeur and her maid. The order for alimony was one of the largest ever given in a local court. It was accompanied by an order that Menjou pay her attorney \$2500 on account of his fee. "He was sending me \$300 a week up to May 1, and then he stopped," said Mrs. Menjou. "I have a letter here in which he promised to pay me \$500, which is little enough, inasmuch as he makes \$5000 a week." "It's only \$5000, Your Honor," put in Joseph Scott, attorney for the actor. "There is not much difference for alimony purposes," said Judge Hubler, "put it in the record as \$4000." Menjou was not in court, and it was explained he was busy at the Lasky lot earning the alimony payments.

The letter offering \$500 a week was placed in evidence. It was dated December 19, last. One quotation from it read: "Your hatred of me and my family is beyond belief. You have brought Harold up to think that I came from nothing, to think of me as a product of your work, that I was in the gutter before you met me." Harold is their adopted son. A phrase of advice as to bringing up in the letter reads: "Don't burden him with too much religion or tears." Menjou's complaint asserts his wife is conceited and made many sarcastic remarks about him.

## Services Said for Freeman in South Pasadena

Services for former Judge William P. Freeman were conducted at the Turner, Stevens & Berry Chapel in South Pasadena at 8 p.m. yesterday. Judge Freeman, who was 78 years of age, was in active charge of the legal department of the California Title Insurance Company until he was stricken about a fortnight ago. Judge Freeman was nationally known as a land title attorney. At one time he was county judge of Fairbury, Neb., and practiced before the United States Supreme Court. He is survived by his widow and two sons, W. Guy Freeman of Fairbury, and Asa T. Freeman of Pomona.

## STREET-WIDENING PROJECTS APPROVED

Three important street-widening projects embraced in the major-traffic plan were approved yesterday by the City Council Street Opening and Widening Committee. They were Glendale Boulevard, from First street to Riverside Drive, three and one-half miles, new width 100 feet; El Sereno Avenue, from Huntington Drive to Alhambra Avenue, one and one-half miles, new width 50 feet; and Highland Avenue, from Cabuena Pass to Santa Monica Boulevard, new width 100 feet.

## 'HIGHER-UPS' HIT IN STORM DRAIN

(Continued from First Page)

\$50,000 to make the corrections if the acceptance goes through, he said. A large crowd of taxpayers from the district were at the hearings and bursts of ironical laughter from them punctuated the hearing as the city inspectors scored the work done. "There were so many flaws in the job we couldn't list them all on the cards provided," one inspector said. It was brought out by Cortesly that the storm-drain job itself was well done. The sanitary sewer was the fly in the ointment.

**COUNCIL HAS POWER**  
That the City Council has ample legal authority to eliminate Contractor Peter B. Gadd's \$208,981 bill of storm drain "extras" from the contractor's total bill of \$1,056,000 for the entire West Adams improvement, and to confirm the assessments excluding the bill of "extras," was the substance of a report rendered by City Attorney Stephens to the City Council yesterday.

This view is disputed by Attorneys W. H. Anderson and Asa V. Call, representing Contractor Gadd. It was considered certain yesterday that should the Council, as a result of the disclosures now being made by the investigation by its Public Works committee of the West Adams improvement and the contractor's bill of "extras," exclude the "extras" and then confirm the revised assessments, the contractor will appeal to the courts. Should the contractor win in the courts, it was doubtful yesterday as to where he would obtain the \$208,981 "extras" from as the City Attorney, in his opinion yesterday, held that "there is no liability on the city or any of its officers to pay the cost of an improvement and that the city has no authority to make an appropriation to pay the same."

**TERM DEFINED**  
The City Attorney held that the Council has no authority to modify the assessment minus the bill of extras "unless the Council finds and determines that the additional work or a part thereof was unauthorized by the resolution of intention and the contract for this improvement." Chairman Randall of the Public Works Committee asked Assistant City Attorney Whitehead if the word "unauthorized" could be interpreted to apply to additional work that had been shown to be "unnecessary" and the attorney's reply was in the affirmative. Councilman Randall then said that testimony before the investigating committee shows that \$50,000 of the \$208,981 additional work has been declared unnecessary by the City Engineer and was authorized by the Board of Public Works on January 25, last, on motion of Commissioner Dunn "after the additional work was completed." That Contractor Gadd's attorneys, however, are battling the Council every step of the way to prevent, if possible, any confirmation of the assessments which would not include the "extras," was shown yesterday when Contractor Gadd filed a formal demand on the Council for confirmation of the original assessments. This was similar to the demand filed by Menjou by Contractor Gadd with the Board of Public Works.

**JURISDICTION DENIED**  
Attorney Anderson in a brief, but vigorous, address to the Council yesterday declared that the Council by denying all appeals of property owners on the 12th inst. lost jurisdiction and that the confirmation of the original assessment must follow as mere formality. The attorney declared the contractor has done all work in accordance with plans and specifications, that it has been accepted by the Board of Public Works and that full payment must be made in accordance with the terms of the contract.

"The term 'extras' in the West Adams matter," said Attorney Anderson, "is a misnomer, as the additional work is provided for as part of the contract and the unit prices for this additional work is a part of the contract. The controversy has assumed a political phase and Mr. Gadd is being made 'the goat.' He did his work in good faith and should be paid for it."

On account of the "political phase" into which the matter has developed, Attorney Anderson said, he suggested that the city employ an outside independent attorney to advise the Council and said that if there are no funds available Mr. Gadd will pay the attorney's fees.

**LOSSES ASSERTED**  
"We have complete confidence in the City Attorney," said President Workman, "and the Council will get its legal advice from the City Attorney." The 12th inst. was the date on which the contractor, under ordinary circumstances, would have received the warrant for his \$1,056,000 West Adams job, but the Council has continued the matter of taking action on the confirmation of assessments from week to week in order that the Public Works Committee investigation could continue. So, yesterday, the Council continued until next Tuesday action on the question of confirming the West Adams assessments. Attorney Anderson said the Council's delay in confirming the assessments is costing the contractor \$380 a day, most of which is for interest on the \$1,056,000 borrowed to build the West Adams improvements. Chairman Randall of the Public Works Committee said he believed the committee may be able to complete its investigation and to make its report this week.

## McGUIRE STAND IN DRAIN 'EXTRAS' BACKED

The stand of President McGuire of the Board of Public Works against the West Adams storm drain extras was approved, and the Council was called upon to refuse Contractor Gadd payment for amounts in excess of his contract, in resolutions adopted yesterday by the El Sereno Farmdale Improvement Association. Approval of the extras is declared a bad precedent, and it is said property owners will hesitate to sign improvement petitions in the future if the extras are allowed. In the resolution addressed to the Council, the other resolution, addressed to Mayor Crier, asked for reappointment of President McGuire.

**SEATTLE ARTIST TOWER VISITOR**

KFOA Announcer Sings for KHJ Audience

Oklahoma Lions Drop in for Half-Hour Stay

Stewart-Warner Quartet Renders Program

BY MAE PRICE BROOKS  
(Illustration by Picture-Paul)

The tower studio was a busy place last evening, and the program was distinguished by several interesting features. It was our pleasure to present Jack Semones, baritone, and announcer of KFOA, Seattle, in several groups of lovely ballads. Mr. Semones is a visitor in our city, and he and his friend, Paul P. Cowan, whom you have recently heard over this station, came in together, both graciously entertaining our vast audience. Mr. Semones, accompanied by Mr. Cowan, sang "Rose in the Bud," by Foster, "Ten Thousand Years From Now," by Ernest Ball, and several of the songs much in demand by Radioland. Mr. Semones played two short numbers, "Piano-Flage," by Arndt, and the ever-popular "Rode," by Arndt.

A special half-hour was given to the Lions' Club Quartet of Ponca City, Okla., who stopped over here on their way home from the Lions' Club convention at San Francisco. John Slingerland, baritone, can always be depended upon to thrill his listeners with his glorious voice. He is a fine artist, and it is always a pleasure to have him with us.

**SEMICLASSICS**

The Stewart-Warner Quartet played satisfactorily, as they always do, a number of semiclassic selections. Among their numbers were "A la Men Almen," by Schuetz, the Barcarolle from "The Love Tales of Hoffman," by Offenbach, and an arrangement of the Kashmiri Song, by Amy Woodford-Finden.

We were glad to have Ada M. Penne with us again. Her beautiful mezzo-soprano voice was heard over this station some months ago, and last evening served to increase our admiration for her work.

"Mummy Lou of KHX" delighted her friends, especially the ladies, with her discourse on "Reducing." Her view point in as interesting one.

Some of Jose Ariza's entertainers were with us. Their Mexican music is full of melody, and was excellently performed. The Mexican musical instruments are particularly adaptable to broadcast work.

H. M. Robertson came from his kennel under the beautiful oaks at Lamanda Park long enough to tell

**BOOTLEGGING ALIMONY-PROOF.**

Judge Informs Wife He Cannot Command Husband to Keep Up Assorted Law-Breaking Trade in Order to Give Spouse Larger Weekly Income

Bootlegging, as Judge Holzer plainly stated in open court, is a traffic to which the courts cannot extend the slightest recognition, except of course by way of jailing bootleggers.

And so despite the fact, as sworn to by Mrs. Ada Greenston, that Henry Greenston wears diamonds and drives a \$5000 car, the best the judge could do for her in the way of alimony, was an order for \$20 a week, pending trial of her divorce suit.

This was because Mrs. Greenston, when called upon to show what her husband's income might be and how he gets it, could point to nothing except what she declared was a flourishing business in trade Scotch and the signs of the country.

"This court certainly cannot officially recognize such business," Judge Holzer tartly retorted.

Greenston was not in court to hear this, having failed to respond to the order to show cause. In her complaint Mrs. Greenston charged mental cruelty.

first time in over two years that the radio fairies did not take a trip into the land of Ought-to-be, but Queen Tishia promised her friends that she would take them to her wonderful country next week.

**NOON PROGRAM**

The noon program brought the Rod Loring Night Club Orchestra of Ocean Park, with Betty Abbott, blue singer, who always sets the telephone ringing. Harlan Pauley and his steel guitar and Arthur Goodstein, singer of popular songs, completed a pleasant noon hour.

The Los Angeles Railway Orchestra closed the day's broadcast with an hour dance music between 10 and 11 o'clock.

**Victim Knocked Unconscious by Colored Bandit**

Attacked and beaten unconscious by a negro bandit, Albert Richmond, 29 years of age, of 119 East Trustlow street, Fullerton, was found yesterday at Twenty-fifth and Naomi streets and taken to Receiving Hospital. He is suffering from a broken jaw and several wounds, and a piece of knife blade was removed from his hip.

The description he gave police of his assailant fits, officers say, that of a negro hold-up man known as Panama.

After knocking Richmond out, the negro apparently fled, as the contents of his pockets were not disturbed. Richmond said he put up a fight when the negro attempted to rob him.

**Valley District Randall Recall Election Sure**

That there will be a special election in Councilmanic District No. 1 (San Fernando Valley) to vote the question of the recall of Councilman Randall was assured yesterday when the petitioners for the election filed the additional signatures for the petition. The first petition lacked 140 signatures of the number necessary to call an election.

The City Clerk began checking the supplemental petition last night and it seemed certain that more than the necessary 140 names would be certified. The City Clerk, in certifying the sufficiency of the recall petition to the Council, will recommend that the special election be held about September 21, next, on account of the brief time that remains before the August 31 primaries for candidates for the Council to circulate and file petitions for the placing of their names on the recall special-election ballot.

**COLORADOANS TO PICNIC**

President W. Warren Campbell of the Colorado State Society yesterday announced the annual summer picnic for all former residents of that State will be held all day Sunday, August 1, next, at Sycamore Grove Park, with basket dinners at noon. There will be a popular program and twenty registers will be open all day so friends may meet each other. The program will follow the dinner hour and hot coffee will be provided for all picnickers.

**CANADIANS TO FROLIC**

A frolic and dance will be given by the Canadian Society of Southern California at the Arcadia Ball Room, 216 North West 5th avenue, tomorrow night. It will be the seventh such affair given by the organization and all former Canadians, Australians and Britishers are invited.

**YOSEMITE POOL TO BE DEDICATED**

Formalities Saturday to Open Eagle Rock Park and Playground

Yosemite municipal swimming pool, just completed at Eagle Rock, will be dedicated Saturday afternoon by the Los Angeles Playground and Recreation Department. Participating in the formalities will be many city officials, the Eagle Rock Chamber of Commerce, neighborhood organizations, Glendale and Pasadena officials and representatives of Occidental College.

Playground Commissioner Mrs. W. C. Means will be chairman of the day, and particular honor will be shown Mrs. H. E. Curran, Mrs. R. L. McNitt and Mrs. J. C. Ritter, most active in securing Yosemite playground, and H. H. Maxon, through whom the site was made available. Commissioner Mrs. Means will present the plunge to the community, and Councilman Ash will make the formal acceptance speech. President Bird of Occidental will deliver the dedicatory speech.

Daughters of the American Revolution will present a flag to the playground and Boy Scouts will raise it. City Scouts, in uniform, will give a flag drill. The playground staff will be introduced by Superintendent Hjelle. A band, Kiwanis Club Quartet and others will provide music.

Other speakers will include representatives of the Eagle Rock Chamber, President Shearer of Eagle Rock Improvement Club, and members of the ministerial association. Swimming and diving contests and water sports will be featured by boys. The rest of Yosemite playground will be shortly completed, and ready for community activities.

**HOME WILLED ESTATE**

Masonic Institution for Aged Gets Bulk of Woman's Property

The Masonic Home for the Aged at Decoto and the Children's Hospital of Los Angeles are the public beneficiaries named in the will of Mrs. Viola Mays, died yesterday for probate. The Masonic Home is directed to receive 80 per cent of the estate, the hospital 8 per cent. The remaining 12 per cent is left to Robert S. Grams, who is named executor.

Mrs. Mays died the 24th inst. No heirs-at-law are named in the probate petition, which states the value of the estate merely as "over \$10,000." The filing was made by Attorney Voltaire Perkins.

A frolic and dance will be given by the Canadian Society of Southern California at the Arcadia Ball Room, 216 North West 5th avenue, tomorrow night. It will be the seventh such affair given by the organization and all former Canadians, Australians and Britishers are invited.

**BANK of AMERICA**

Our idea of "bank helpfulness" is to have an intimate personal relationship with our patrons—in which we bring to their business and personal affairs the knowledge and cumulative experience of a great banking institution.

Bank of America service is modern, progressive, helpful—and the very embodiment of kindly consideration and true courtesy.

*"Grow old along with me,  
The best is yet to be."*

WITH her children grown up, the middle-aged woman finds time to do the things she never had time to do before—read the new books, see the new plays, enjoy her grandchildren, take an active part in church and civic affairs. Far from being pushed aside by the younger set, she finds a full, rich life of her own. That is, if her health is good.

Thousands of women of middle age say they owe their vigor and health to Lydia E. Pinkham's Vegetable Compound. Those who have learned through their own experience the merit of this dependable medicine are enthusiastic in recommending it to their friends and neighbors.

A woman in Nebraska was troubled with headaches for fifteen years. She writes, "I began to take Lydia E. Pinkham's Vegetable Compound and I have felt my health steadily improving. Today, after taking your medicine for almost a year and a half, I believe I can say the headaches have left me for it is seven months since I had the last one. I am continuing the Vegetable Compound. I am feeling fine now."

This woman is the mother of six children with a large house to care for. Her name is Mrs. ADOLPH BRATKE, 4316 South 13th St., South Omaha, Nebraska.

## Lydia E. Pinkham's Vegetable Compound

**SOCIETY**  
BY JUANA NEAL LEVY

ments of the week will be the luncheon with which the Hollywood Bowl Association is planning to entertain Friday afternoon at the Ambassador. In honor of the distinguished visitors, Sir Henry and Lady Wood, the former the famous director of the London Symphony Orchestra, who is giving two weeks of his valuable time to be guest director of the Bowl concerts here.

Five hundred invitations have been issued and the affair is under the direct supervision of Mrs. Oliver Converse Bryant, Mrs. Leland Atherton Irish and Mrs. E. Avery McCarthy, assisted by representative Angelene including Mr. and Mrs. Allan C. Balch, Dr. and Mrs. Ernest Albert Bryant, Mr. and Mrs. Daniel Murphy, Mrs. Joseph Francis Sartori, Mrs. Hugh Livingstone Macneil, Mr. and Mrs. William May Garland, Mr. and Mrs. Robert Irwin Rogers, Mr. and Mrs. James Rathwell Page, Dr. and Mrs. Jesse Hampshire Jones, Mr. and Mrs. Norwood Howard Commodore and Mrs. James Reed, Mr. and Mrs. Alexander Macdonald, Mr. and Mrs. Earl C. Anthony, Mr. and Mrs. Alfred Wilcox, Mr. and Mrs. Louis Dreyfus, Mr. and Mrs. John Barnes Miller, Mr. and Mrs. Henry Maurice Robinson, Mr. and Mrs. Burton Edmund Green, Mr. and Mrs. Roland Porter Bishop, Mr. and Mrs. Arthur S. Bent, Mayor and Mrs. George Croy, Mr. and Mrs. William Gibbs McAdoo and Mr. and Mrs. Frank Galloway.

There is to be a delightful musical program and a number of brief talks at the luncheon.

At the speakers' table will be Sir Henry and Lady Wood, Mr. and Mrs. Allan C. Balch, Mr. and Mrs. Frederick W. Blanchard, Dr. and Mrs. Percival T. Gerson, Mrs. Burdette H. Norton, Mr. and Mrs. M. F. Palmer, Mrs.

ONE of the attractive members of the younger set who is enjoying a delightful summer's vacation is Miss Marguerite Bone, daughter of former Governor of Alaska and Mrs. Scott C. Bone, who are making their home in Los Angeles now. Miss Bone, recently graduated from the University of Washington, joined the delegation from Seattle Tuesday to attend the Kappa Kappa Gamma convention in Oakland. She will return next week to participate in this city's greetings to the delegates.

Leland Atherton Irish, Mrs. Oliver Converse Bryant, Mr. and Mrs. Alfred Hertz, Walter Henry Chinn, Modes Aitshler, Mr. and Mrs. E. N. Martin, Mr. and Mrs. Arthur S. Bent, Mr. and Mrs. J. J. McCallie, Mr. and Mrs. Frank Galloway, L. E. Behrmer, Charles Wakefield Cadman, Mr. and Mrs. E. Avery McCarthy, Mrs. Loren B. Curtis, Rafaelo Diaz and Raymond Britz.

**Bridge-Luncheon**

A charmingly appointed luncheon and bridge was the entertainment provided by Mrs. John F. Howard of the Glen Donald Apartments. Last night the hostess had the honor of

Roehl of New Orleans, who are summing in Los Angeles. The table was set with a white centerpiece of summer flowers and ferns, the tulle and candlesticks with yellow candles carrying out the same effect. The covers were of the same material, marked the covers for twenty guests. Bridge in the gardens followed the luncheon.

**Church Wedding**

The wedding of Miss Fern Nellie Cushing, attractive daughter of Mrs. Emma Cushing of 4564 S. Radio street, Ice Angeles, and Dr. Rudolph F. Jacobson, son of Mr. and Mrs. Nels Jacobson of San Francisco, was celebrated at the Church of the Holy Spirit.

Mr. Howard's nephew. The table was centered with a profusion of yellow and lavender, summer flowers, tulips and ferns, lavender predominating. The guests were seated on the left, guests repaired to the patio, where bridge was featured.

Tickets included were Mrs. Lang, Mrs. C. G. Wenger of Long Beach, Mrs. Charles Gordon of Oxnard, Mrs. Charles Stamps, Mrs. F. J. Cahill Mrs. C. G. Ganahl, Mrs. D. J. Breslin, Mrs. J. W. B. Smith, Mrs. J. W. Ford, Mrs. Conley, Mrs. Joseph Roylance, Miss Isabelle Bauer, Miss Margaret Carson, Miss Lela Hammond and the hostess.

**Delightful Affair**

One of the prettily appointed events of recent date was the luncheon given at the home of Miss Rose M. Quigley entertained Saturday afternoon in the Rose Room of the Mary Louise in honor of Mrs. W. M. Hobbs and her daughter, Miss Rose. The bride was the usual "Miss" with old princess lace and embroidered with pearls and fashioned with a long court train of georgette and tulle. She carried a bouquet of roses crowned with a coronet of real lace and pearls. She carried a shower bouquet of orchids, butterfly roses and carnations.

Assisting the bride as maid of honor was Miss Vera May Cushing, gowned in flame georgette and carrying an apricot blossom bouquet. The bridesmaid was Paul Perist rose.

Carl Jacobson served his brother as best man and Dr. Ralph Hulen, a cousin of the bride, and Merritt Bettinger were the ushers.

A reception attended by more than 170 guests was held at the home of the bride's brother following the luncheon. The bride and groom were disappointed in the weather and

# Follow Nature's Rule

*If gaining natural skin beauty is your aim*

By NORMA TALMADGE

Copyrighted, 1929, by P. G. Beauty Features

**Foremost skin specialists urge this simple rule in skin care. Follow it for one week—note the improvement that comes**

**B**ECAUSE all the world seeks natural skin loveliness today, natural ways in skin care now have supplanted the artificial ways of yesterday.

Thousands of the pretty complexions you see and envy are due to the simple rule in skin care given here. It has brought clear complexions to more women than any other method known.

For your own sake, try it, if only for a week—just 10c for a cake of soothing Palmolive, used in this way:

**THE RULE . . . AND HOW TO FOLLOW FOR BEST RESULTS**

Wash your face gently with Palmolive Soap, massaging it softly into the skin. Rinse thoroughly, first with warm water, then with cold. If your skin is inclined to be dry, apply a touch of good cold cream—that is all.

Do this regularly, and particularly in the evening. Use powder and rouge if you wish. But never leave them on over night. They clog the pores, often enlarge them. Blackheads and disfigurements often follow. They must be washed away. Follow these rules day in and day out. Your skin will be soft and lovely—naturally colorful and clear.

**BE SURE YOU GET THE REAL PALMOLIVE**

Do not use ordinary soaps in the treatment given above. Do not think any green soap, or represented as of palm and olive oil, is the same as Palmolive.

Remember that before Palmolive came, women were told, "use no soap on your faces." Soaps then were judged too harsh. Palmolive is a beauty soap made for one purpose only: to safeguard your complexion. 50 years of soap study stand behind it. Millions of pretty skins prove its effectiveness beyond all doubt.

It costs but 10c the cake!—so little that millions let it do for their bodies what it does for their faces. Obtain Palmolive today. Note what one week of its use brings you. The Palmolive Company (Del. Corp.), Chicago, Illinois.

**Diet and Health**  
By Lulu Hunt Peters, M.D.  
*Author of Diet and Health and Diet for Children*

## ANSWERS TO CORRESPONDENTS

Here's a helpful letter, with some points for our crowd:

"Dear Doctor: When I made up my mind to try your reducing method, I decided not to tell a single soul until I found out if I had the will power. In less than three days, on the shrinking-stomach period, I lost ten pounds. I weighed 181 pounds to begin with; now I weigh 147 pounds. Our whole family consists of heavyweights. Several of my friends are suffering with the same ailment, and I, for one, don't believe I'll ever weigh 181 pounds again. "One thing that encourages me is the fact that it takes much less medicine to get the Christmas and New Year's. Went on the second skin-milk diet after New Year's and lost eight pounds in three days. "I am sure that the will-power to refuse foods when on a liquid diet, to make the will-power to pay no attention to the stomach, and if you find they cease.—Mrs. F. "

In my book on diet and health, I advised to tell all your friends, often privately, that you knew it was unnecessary to tell them. I was patriotic—the book was written during the war—and that's why you were proclaiming your intention to get ashamed not to keep it up. One of my followers who had followed the diet for a long time, wrote me and

said she was writing to tell her friends because they didn't have to go to the outside departments for their clothes. I remember one of the greatest thrills I ever got was about the time I was looking for a dress that was both attractive and marked down. I picked one out and then I saw a woman who was looking down for you, madam; that's for a large woman." O. Broy, didn't she make me happy!

It's a good idea for you to save your money, Mrs. F. If you can't then it is much easier to stay rounder than that weight. And if you do gain weight, you can lose it. You will take it off for you! However, it is better never to gain more than one day's dieting will take off.

There's no doubt that you do need the will-power to reduce, but I have said so many times before, what you really need is Want power. If you really want to reduce, then you'll do it. Yes, people who are successful when they find out that you can do any certain thing you set out to do, are successful in getting the appetite control. I say, people who are successful, certainly do control their appetites. Should. Thank you for writing to me.

Mrs. F. and those who are in need of instructions on reducing may have our book sent to them for free. Please let on the subject. For this please send ten cents in stamps and send the stamps to the address on the request. Put the name of your city on the stamp. Don't simply write "City." Allow at least two weeks for its receipt.)

**G—We have an article on Bloating which you may have been interested in. It is stamped envelope style. Write your request.**

**Sorority Circles**

Miss Vivian Murphy entertained the members of the Alpha Delta Pi Sorority at University of Southern California Saturday afternoon at 4 o'clock, 639 Pacific avenue, Santa Monica, the affair being an informal meeting of the sorority members who were in the city during the summer and plans for the coming "rushings" in September were followed by these bridges. Those included were: Betty Baker, Miss Herbert Pilsner, Ernest Schuchtmayer served as toastman and Edward Dunlap was usher.

Following the ceremony, a reception was held at the home of Mr. and Mrs. Ernest Schuchtmayer after which Mr. and Mrs. Nation left on a motor trip to the northern part of the State. Upon their return they will make their home in Los Angeles.

#### HOUSEHOLD SUGGESTIONS

**Time Reval.**  
Saw a strip of muslin an inch wide on the legs of the kiddie's union suits to slip under the belt, the straps on leggings. This will enable them to put on their own stockings and save you time on busy mornings.

**Scorched Clothes.**  
It does happen sometimes to the best of families. But the next time wet the scorched article of clothing in water and sprinkle with borax. Put in the sun and the scorched state will soon disappear.

**Basting in Fine Material.**  
When basting thin silk or satin, use a fine needle and silk thread, pulling out the basting threads every few inches. This will prevent holes and roughing up of the material.

**Stained China.**  
To remove brown marks on china, place the stained article in a solution of soda water and a lump of soda. Boil for twenty minutes and then rinse well and you will find the stains have disappeared. Of course, this does not apply to your Languette china, but the coarser ware that is more subject to cooking stains.

**Out of the Way.**  
If you use a number of small rug on your floor, the easiest way to get them out of the way when cleaning the room is to slide them under the chair and then lay them across the rug when the chair is moved the rug goes along too and are out of the way until the room is cleaned.

#### MOTHERS AND THEIR CHILDREN

**Respecting Others' Property**  
One Mother Says:  
"Oh, Betty received as a birthday party, too, didn't she?" asked my neighbor as she eyed an illustration of a letter belonging to my little room table.  
"I don't know, I didn't open it," I said.  
"And why not?" inquired my neighbor, quite surprised.  
"Oh, that's Betty's letter! She doesn't receive many all her own, and besides the pleasure it gives her, I want to teach her that a letter belongs only to the person to whom it is addressed. Therefore I respect her privacy, to teach her to respect others'. It is one of the niceties that refined and honorable people observe, and this is the time to teach it!"

#### MYMAN'S Questions

#### MYMAN'S Menu

**VELVET SOUP**  
Cook one-half cupful of tapioca in six cups of well seasoned stock. Beat the yolks of three eggs in the soup tureen and pour carefully over the boiling soup. Stir until smooth and creamy, and season with salt, pepper, and grated cheese.

**STUFFED CUCUMBER OF YELL**  
Order a five-pound cucumber of well ripe fruit from the upper part of the lot. Wipe, stuff with rice, and cook in a four-quart pot until the water has boiled away and the cucumber is tender. Season with salt, pepper, and butter.

**BROWN MUSHROOM SAUCE**  
Four of one-fourth cupful of butter, one-half cupful of cream, and one-half cupful of stock. Melt the butter and stir until well browned. Add the cream and stock and stir until thickened. Season with salt, pepper, and a dash of Worcestershire sauce.

### AGREEMENT REACHED IN TRAVEL SUIT

#### Caused by Flood Oil Tank Adjusted by Court for \$10,000

The litigation may have been the last of its kind, as the court has reached an agreement in the travel suit. The court has ordered the oil tank adjusted by the court for \$10,000. The suit was brought by the O'Donnell Company, for the recovery of an unusual claim for damages caused by a flood. The court has ordered the oil tank adjusted by the court for \$10,000. The suit was brought by the O'Donnell Company, for the recovery of an unusual claim for damages caused by a flood. The court has ordered the oil tank adjusted by the court for \$10,000.

### FOURTEEN POINTS WIN HIS CASE

#### Man Who Admits Guilt in Minor Violation Charge In That Many Children

Mr. Starke, after entering a plea of guilty to a charge of possession of a dangerous weapon, admitted the guilt of the fourteen children. The court has ordered the oil tank adjusted by the court for \$10,000. The suit was brought by the O'Donnell Company, for the recovery of an unusual claim for damages caused by a flood. The court has ordered the oil tank adjusted by the court for \$10,000.

### MRS. STARKE NAMED IN LOVE SUIT

#### Wife Charges Woman, Said to be Mother of Actress.

Mrs. Starke, said by attorneys in the love suit, is the mother of actress. The court has ordered the oil tank adjusted by the court for \$10,000. The suit was brought by the O'Donnell Company, for the recovery of an unusual claim for damages caused by a flood. The court has ordered the oil tank adjusted by the court for \$10,000.

### Thorny Road of Beatings Wins Decree

#### From San Pedro to Compton was a thorny road for Mrs. Marguerite Ward, as she told the story to Judge Gates yesterday.

"Judge, he started in beating me at San Pedro, and he beat me all the way to Compton," Mrs. Ward complained. In this matter, she was referring to the conduct of her husband, Roy Ward. "Judge, I do not see how you could get out of this. I believe I should have more than \$50 a month, pending trial of my contested suit for divorce, according to a plea for reduction of alimony filed for Sanford yesterday by his attorney, Lador Morris. And that is exactly what a certain swarthy gentleman has been doing. It is declared in a group of affidavits filed with Presiding Judge Gates yesterday. He submitted his own affidavits and those of three other persons, all stating that they had seen a man, described as of swarthy appearance, enter Mrs. Sanford's apartment in Winona street, Hollywood.

### Novice Autoist in Two Crashes Given Leniency

#### Joe Marsh of 1016 1/2 West Temple street missed going to jail yesterday but not because he wasn't guilty of reckless driving.

According to Officer Packham, while directing traffic at Salina street and North Broadway, he was run down by Marsh, who failed to stop his automobile, notwithstanding the fact that he had been turned against him. The officer further testified that while en route to the Lincoln Heights jail, Marsh collided with another automobile. "It isn't so much that he is reckless, your honor," Officer Packham declared, "as it is that he just doesn't know how to drive."

### CAFE NOTES

The Montmartre Cafe in Hollywood will celebrate motion-picture night this evening with Mr. and Mrs. Clarence Brown of filmland as guests of honor. Eddie Brandt, owner of the cafe, is planning to make motion-picture night one of the most notable in the history of the cafe. Mr. and Mrs. Brown will entertain a large number of the most prominent luminaries in the film capital. An elaborate musical program is being arranged by Fyfe Moore, leader of the Montmartre Orchestra, and will include his latest dance number, the music for which he composed himself. He will dedicate this number to Mrs. Brown tonight when his orchestra will play it in public for the first time.

### RIVAL WINS KISSES, HE COMPLAINS

#### Husband Asks Reduction in Alimony Because of His Wife's Asserted Actions

If a swarthy gentleman has been carrying Mrs. Genevieve Sanford around in his arms and kissing her, Frank M. Sanford, picture producer, does not think she ought to cost him more than \$50 a month, pending trial of his contested suit for divorce, according to a plea for reduction of alimony filed for Sanford yesterday by his attorney, Lador Morris. And that is exactly what a certain swarthy gentleman has been doing. It is declared in a group of affidavits filed with Presiding Judge Gates yesterday. He submitted his own affidavits and those of three other persons, all stating that they had seen a man, described as of swarthy appearance, enter Mrs. Sanford's apartment in Winona street, Hollywood.

### Yeggs Abandon Car After They Rob Shop's Safe

#### Yeggs blasted open a safe yesterday at the shop of the American Art Leather & Jewelry Company, 1704 South Los Angeles street, obtaining \$75. They left behind them a battered wreck of a car, with two fast tires, in which they apparently drove up to the rear door.

They entered through the back door and cut a hole in the door to gain access to the premises. A hacksaw blade left behind, of course said, showed fingerprints with which officers hope to identify the burglars.

### CUSTODY BATTLE ENDS

#### Settlement Out of Court Indicated in Legal Row Over Child

Indicating a settlement out of court of the dispute over the custody of Theodore Joseph Paul, 2 years of age, the writ of habeas corpus brought by Bernard H. Paul, the child's father, for his custody was dismissed yesterday by Judge Keeler of Juvenile Court on motion of Paul's attorneys. Paul directed his writ at Anna H. Grime, 1332 West Fortieth place, with whom he declared he had left his son to obtain a woman's care. When he asked Mrs. Grime to return the boy to him, he said, she refused to do so.

### Jury Will Get Mail-Fraud Case Sometime Today

#### The case of F. J. Buschmiller, Otis Mandini and A. Rampp, charged jointly with using the mails to defraud Southern California investors out of more than \$100,000 in connection with a vineyard and oil scheme in the Antelope Valley, was scheduled to be given to a jury in Federal Judge McCormick's court late today. Arguments on both sides were expected to be completed early today, with Asst. U. S. Atty. Peterson presenting the government's case.

The three defendants are asserted to have operated the Rock Creek Development Company, controlling 168 acres of land five miles east of Falmale. Complaints asserted, however, that a 800-foot dry hole was the only development work ever accomplished.

### MARCHETTI CANDIDACY INDORSED BY YORK

#### In a letter to Joseph Marchetti, candidate for the two-year term on the Superior Court bench, Associate Justice York, Division One of the Second District Court of Appeal, refers to his qualifications for the position. The letter, in part, follows: "I know that you are thoroughly qualified both by judicial tempera- ment and legal training to fill the position of judge of the Superior Court. I have heard your candidacy referred to more than that of any other candidate and you certainly have many good friends among the attorneys."

**NEW LIGHTS BOUGHT**  
The installation of ornamental lights on Madro Drive from Beverly Boulevard to Helena street was requested yesterday of the City Council by property owners.

**MINT GROWING PROVE MINT**

Distilled Oil Shipped East Brings \$2000 a Barrel

Experimental Planting Made in Porterville District

Soil, Climate and Natural Conditions Suitable

PORTERVILLE, July 27.—Justification of John M. Davies' faith in commercial planting of Japanese peppermint in the Woodville district west of here for distilling of oil for medicinal purposes appears warranted in recent shipment of five barrels of oil to eastern drug markets, now found to have been worth \$10,000. Mint for this distillation was harvested from the Yossie-Davies, Colden-Bogers and Peterson fields. Regular shipments now are under way.

Davies, who is experienced in the culture of medicinal plants, came to Porterville from Portland, Or., two years ago, and started experimental planting of Japanese mint, the first in the United States out of governmental gardens.

Oil extracted from this mint is used for medicinal purposes, including cough syrups, lozenges, ointments, etc. Hitherto it has been imported from Japan at great expense and cultivation of the plant in the United States on a commercial scale is foreseen as an important stride in the drug realm.

Building support of the Porterville Chamber of Commerce, Davies interested ranchers of the region west of here in the project. The mint is cultivated very much like alfalfa, and soil, climate and natural conditions in the Woodville district are declared particularly suited to the growth.

Davies is handling the shipments of oil, sending it to New York drug dealers, who declare it a very high quality. Considering returns of \$10,000 for five barrels, it is believed mint will be grown on a much larger scale in future years.

**Colonists Plan Cotton Harvest Fete in Mexico**

MEXICALI, July 27. (Exclusive).—Mexican colonists in Lower California today launched plans for a cotton festa to be held September 15, next, to mark the beginning of cotton harvest on the 130,000 acres planted to staple in the Imperial Valley of Mexico.

The central feature of the carnival is to be the presentation of three prizes offered by the American Cotton Growers' Association for the best yield of cotton grown, the largest yield per acre and the most grain produced by any one rancher.

In addition to these prizes, which will consist of farm machinery and stock, the colonists have offered 200 pesos to the Mexican rancher who makes the best record for industry.

The three colonies, sponsored by the Territorial government, Progreso, Asolo and Castro, have produced unusually fine crops this season, and O. Rodriguez is highly pleased with the results of his experiment in land colonization.

**SETTLEMENT OF OLD WATER FIGHT HINTED**

FRESNO, July 27.—Steps toward a settlement of the controversy between Centerville bottom landowners and Kings River over rights to the water of the river were being attempted today when engineers of the district, in Fresno and Kings county met here to formulate a plan that they believe will prove satisfactory to all interests involved. It was announced that the findings of the engineers will be submitted to their respective boards of directors at meetings to be held in the various districts Thursday. The engineers announced that satisfactory progress was made, and they believe they will be able to reach a solution that will be acceptable and which may prove to be the basis for a permanent settlement of the water controversy, which has existed intermittently for twenty years.

**RETURNS FROM CONVENTION**

SAN FERNANDO, July 27.—Mrs. Oda Faulconer, attorney-at-law and president of the San Fernando Women's Club, has just returned from the forty-ninth annual convention of the American Bar Association in Denver. She reports an attendance of 2101 members at the convention.

**KERN ASSESSMENT SLUMPS**

Drop in Taxable Valuation Due to Drop in Price of Oil, According to Assessor

BAKERSFIELD, July 27.—Kern county's assessment valuations show a decrease of \$10,554,445 under last year's total, according to figures just compiled by Tom Burke, County Assessor. This year's grand total is given as \$164,888,325, while last year's total was \$175,442,770.

Decrease in the price of oil is given as the cardinal explanation for the drop by Mr. Burke. Last year oil was valued at \$1.25 a barrel. This year it has dropped to 75 cents, for purposes of assessment. Because of the smaller oil price the last year's assessment values were increased approximately \$20,000,000. This year, with the radical drop in price, the valuations have dropped in a direct ratio, Mr. Burke said.

A further reason for the decrease, given by Mr. Burke, is the operation of the solvent credits law, which was nonexistent last year. Last year a 7 per cent basis was employed, while this year it is 50 per cent on securities, amounting to a considerable degree for the decrease in valuation. This is a slight increase over last year's total, which was \$12,222,700.

For the operative roll, which in-

**HAWAIIAN TRIO AT HOME**  
**Whittier College Boys Entertaining**

Keoloha Serenaders  
Left to right, Kera Ellis, taropatch; Granville Starbuck, Hawaiian guitar; Gordon Berger, guitar.

WHITTIER, July 27.—Keoloha Serenaders, an organization of "College Boys from a College Town," who have been giving a series of concerts in nearby cities during the summer vacation, gave the second home entertainment in the First Friends Church here this evening, before a large and appreciative audience, the auditorium of the church being the largest in the city.

The young men have sung over Los Angeles radio, at Loe's State Theatre, at the Los Angeles Y.M.C.A., making a total of more than fifty engagements during the season.

The Serenaders present a quartet composed of John Painter, first tenor; Granville Starbuck, second tenor; Gordon Berger, baritone, and Kera Ellis, bass. They give a number of ensemble compositions, and several solos. They also present a violinist, trombonist and organist in solo work. Three of the men, Ellis, Starbuck and Berger, form the Hawaiian trio; Ellis with the taropatch, Starbuck the Hawaiian guitar and Berger a guitar. The trio appears in costume and has scored a tremendous success wherever the players have played. At the present time the unit on a patriotic program at the union services July 4.

Their itinerary carries them from June 14 to August 1 and they have sung over Redlands, Riverside and Pomona on through the cities of the valley to Pasadena, Los Angeles, San Pedro and Long Beach.

**Law's Arm After One-Arm Drivers on Orange Roads**

ORANGE, July 27.—Autoists who drive in Orange with only one arm should beware hereafter, for Charles Wallace, local motor cop, is out to get them. He has lately tagged a number who are scheduled to appear in court on various charges of reckless driving, and they are scheduled to appear Friday morning before Recorder Ingle. Friday morning, Wallace, who is using only one arm, is asserted to have violated every known traffic rule in his wild dash in and out of heavy traffic on the main highway.

At a result both will answer charges of reckless driving when they appear before Recorder Ingle. Friday morning, Wallace, who is using only one arm, is asserted to have violated every known traffic rule in his wild dash in and out of heavy traffic on the main highway.

**FRESNO FRUIT PLANT TAKEN OVER BY STRAIN**

HANFORD, July 27. (Exclusive).—The local plant of the Fresno Fruit Growers, it is announced, has been acquired by Thomas Strain, Jr., and is to be operated by the National Fruit Exchange, which has plants at Armona and Lemoore. The building of the local plant fronts 150 feet on the Santa Fe track.

**FRESNO STARTS JOB OF PRUNING BUDGET**

FRESNO, July 27.—The Fresno City Commission, with but four and one-half days remaining in which to adopt the 1926-27 city budget in accordance with provisions of the city charter, today took up the budget for the first time with a view to trimming it from the tentative amount of \$1,253,641, which would necessitate a \$2.104 tax rate. The details of the budget discussion were not made public, the commission declaring itself in executive session, but statements made following today's two sessions by Mayor Sunderland were to the effect that substantial progress had been made in effecting reductions.

It is expected that the budget scrutiny will be concluded late tomorrow or early Thursday, making possible its adoption at Thursday's weekly session.

**GIRL'S FATHER FILES CHARGES OF BATTERY**

MISSION, Aug. 27.—A charge of battery has been preferred against Frank Robinson, 13332 Teller street, in connection with the injury of Mildred Haskell, who was hurt in a fall from an automobile on Brand Boulevard, near here. The charge was filed by R. W. Haskell, the girl's father, who resides here. It is stated in the police report that Robinson struck the girl on the mouth which, it is asserted, terrified her, and she jumped from the moving car into the boulevard.

**NOSES BAR TO FISH CANNERY**

Long Beach Too Particular for Certain Industries

Fear of Offending Olfactory Nerves Expressed

Sardine Packing Firm's Offer Under Consideration

LONG BEACH, July 27.—Long Beach wants to become an industrial city, but it has a peculiar aversion to about the kinds of industries that it should welcome here. Factories which offend neither the eye nor the nose have first place in the affections of the City Council and City Planning Commission and that is why there is so much ado about a recent application of the Halfhill Packing Corporation to establish a sardine packing plant in the harbor district.

Representatives of the packing company are sure, they told City Planning Commissioners, that a sardine plant can be operated in a such manner that it will not offend the sensitive olfactory nerves of thousands of Long Beach folks who are accustomed to nothing stronger than the gentle zephyrs that blow across Long Beach.

But the members of the City Planning Commission are not from Iowa, at least they told the representatives that they are from Missouri, and that odorless sardine plants are among the things that never was. But a sardine plant said to be existing at Vernon will be inspected.

Opposition to the establishment of the Halfhill company's proposed sardine packing plant has developed from every section of the city. Long Beach is losing heavily by its policy of indifference toward its resort and apartment-house interests, the City Planning Commission was told.

Frank H. Downs, former City Councilman, said odors from fish canneries would drive people away from the city instead of bringing them here.

It was urged that a sardine canning plant would bring to Long Beach a large group of Japanese fishermen and Japanese women who work in the packing industry. A number of packing plants already exist in the Long Beach Harbor district but it was declared that sardine packing had been restricted to two cities and others several years ago that no permits would be issued for additional plants or for the enlargement of those already existing here. Such plants cannot be operated without offending to the nostrils of a whole city, it was claimed by opponents to the application.

**McGroarty and Barnes in Fight to Spare Trees**

GLENDALE, July 27.—The fight to preserve the grove of giant eucalyptus trees on Lomita street developed today with the announcement that George H. Barnes of Los Angeles, president of the Santa Monica Recreation Association, and John Stevens McGroarty, will address a mass meeting tomorrow night at the Tuesday afternoon club, to which all those interested in the preservation of the trees have been invited.

A report was given by G. R. Gordon, deputy horticultural commissioner of Los Angeles county, to Mrs. Roy A. Ballagh, president of the Glendale Recreation Club, to which all those interested in the preservation of the trees have been invited.

**PARK AND PLAYGROUND SITE GIVEN PASADENA**

PASADENA, July 27.—Pasadena bought a city park for the modest sum of \$1 today. That was the amount paid to Herman P. C. Bease and Ida L. H. Bease for their voluntary grant of two and one-half acres to the city.

The land is located on Colorado street, just east of Sinaloa avenue. The city agreed to furnish water to ten families residing on adjoining property at a nominal rate.

**PROPERTY TRADED**

SAN FERNANDO, July 27.—E. J. Linde, associated with the Arthur G. Munn realty firm, has consummated a deal whereby \$60,000 worth of property has been exchanged. The trade was effected by the Munn firm.

The property on Hubbard avenue for the hillside home of L. H. Wilson in Verdugo Woodlands, Glendale.

**TREE NURSERY APPROVED**

Site in Devil Canyon, Above San Bernardino, Will Be Recommended for Raising Young Forest

SAN BERNARDINO, July 27.—Approving the site in Devil Canyon for the proposed forestry nursery in Southern California, Earl H. Clapp, assistant forester at Washington and directly in charge of experimental stations, announced today that he will submit the project to the United States Forestry Bureau for a decision.

The proposal includes the establishment of a nursery in the canyon for the growing of millions of trees for reforestation in the Southern California forest area. The city water department has offered a twenty-acre site to the forestry bureau and the county will co-operate by employing a nursery expert to care for the nursery.

The site was inspected by Clapp and E. L. Kotok, assistant forester of California, who were guests at a

**POLICE HUNT PRINTER OF NUDE FILMS**  
**Arrest of Couple at Beach Brings Quest for Source of Obscene Photographs**

By a "Times" Staff Correspondent  
LONG BEACH, July 27.—Police today began an investigation of amateur film developing establishments here and elsewhere in the belief an organized business of developing, printing and distributing obscene photographs is being carried on.

The investigation is the result, police said, of the arrest this morning in Santa Monica of William E. Wilson, oil worker 46 years of age, of 1873 Cherry street, Long Beach, and Beaul Harshar, 17, who gave police a photograph of a nude couple.

Police said the Santa Monica officers reported they found two snapshots of a nude girl with her face concealed by her hair, and the other of a girl disrobing. The Santa Monica authorities are said to have reported the girl confessed to having posed for Wilson to take the pictures in Los Flores Canyon.

Police are seeking the several hundred prints reported ordered, and are checking up on the drug-store agency and the development firm, they said.

Wilson and the girl were brought here from Santa Monica today by a survivor of the Dalton gang, who was accused of having had the girl live with him, both here and in Santa Monica.

# GIVEN AWAY!

## Absolutely Free!

### A WONDERFUL VIEW LOT!!

and additional prizes amounting to over  
**\$7500.00**

Open to One and All and  
**It Costs You Nothing**

Educational Word Contest  
(Copyright, 1904, H. C. Gilbert & Co.)

For the purpose of bringing to the attention of the people of Los Angeles, Southern California and the whole Southwest, our Beautiful Alta Vista subdivision overlooking the wonderful San Fernando Valley, and making it a household word and immediately better known than any new townsite that has ever been placed on the market; and for the further purpose of enabling the modest investor to know that he now has an opportunity to acquire an ideal home site or a business lot investment at less than half the price ordinarily asked for such wonderfully located property, we have decided upon a plan which will accomplish these purposes as well as being highly enjoyable and profitable to all who enter this contest.

SEE HOW MANY WORDS YOU CAN MAKE OUT OF THE LETTERS IN  
**"BEAUTIFUL ALTA VISTA"**

Do not use the same letter in a word oftener than it appears in the above.  
Do not use the names of persons or places.  
Write only on one side of your paper.  
Mention the newspaper you saw this opportunity in.

THE CONTESTANT MAKING THE GREATEST NUMBER OF WORDS WILL BE GIVEN  
**A Wonderful View Lot Absolutely Free**

This will be the first prize.  
The 50 next highest answers will entitle the successful contestants each, to a certificate of credit of \$100 on another lot like the first prize or any other lot in the tract.  
The 50 next highest answers will entitle the successful contestants each to a certificate of credit of \$50 on any lot in the tract.  
The 100 next highest answers will entitle the successful contestants each to a certificate of credit of \$25 on any lot in the tract.

In the event of a tie, prizes identical in character will be given the winning contestants.

ALL LISTS MUST BE MAILED OR DELIVERED NOT LATER THAN AUGUST 10, 1926, TO:

**HOWARD MARR ORGANIZATION, INC.**  
602-603 Commercial Exchange Building,  
8th & Olive Sts., Los Angeles, California

Contestants will be notified by mail as soon as the lists have been checked, and prizes will be awarded immediately thereafter. A complete list of three newspapers where will judge the awards.  
Only one credit certificate can be applied on a list and only one prize will be given in the same family. No employee of the Howard Marr Organization, Inc., will be permitted to enter the contest.

SAVE THIS FOR REFERENCE

## A NEW MAN

To feel oneself a new man with each new day is part and parcel of physical well-being. But daily revival is impossible if the dregs of yesterday are permitted to poison the cup of life today. It is a law of right living to have no regrets rankling in head or heart, and no toxic burdens lingering in the body.

The gentle discipline of ENO'S Effervescent Salt will help to keep both mind and body clear for action. The dash of ENO, taken in a half glass of water in the morning, promotes intestinal regularity. It helps to remove yesterday's waste out of the way of today's work. And yet, ENO is not revolutionary in its method. It is gentle and persuasive, assisting nature, not bullying her. The dry mouth and throat luxuriate in it, and the inner organs accept it gratefully, because it gives them just the help they welcome and need, perhaps more than you suppose. There isn't a trace of anything harsh or hasty, either in what it is or what it does.

ENO, the World-famed Effervescent Salt, is obtainable from all druggists at \$1.25 and 75c a bottle

Prepared only by  
J. C. ENO, Ltd., London, England

# Camera Reveals Taylor and Grange on Friendly Terms to Last

What Might Properly be Termed Friendly Relations existed between Mr. Harold (Red) Grange of Wheaton, Ill., and Mr. Charles A. Taylor of Beverly Hills, Cal., when they last saw each other on the occasion of the departure of the former for his home town to resume his summer occupation of delivering ice, following a period of activity before the cinema camera at F. B. O. Studios. It will be remembered that Taylor in a cross complaint to a divorce action instituted by his wife, Clarice Taylor, cited "The Galloping Ghost" as one reason for the Taylor marital troubles. This took place after Grange had departed from California. Taylor doesn't appear to bear any malice in the photo at left above, which shows him (left, with horn-rimmed spectacles) with Grange just before Grange's train left for the East. Photo in middle shows Grange back on the job, and at right seated in the most famous ice wagon in the world. (Photos courtesy F. B. O. Studios and by P. & A. photos.)

A Successful Demonstration of a new-type parachute was made yesterday at the Aero Corporation of California airport here by the inventor, Heard McClellan, shown at right (above) wearing his chute. Frank Austin, wearing present-type army parachute, is pictured with him. (Times photo.)

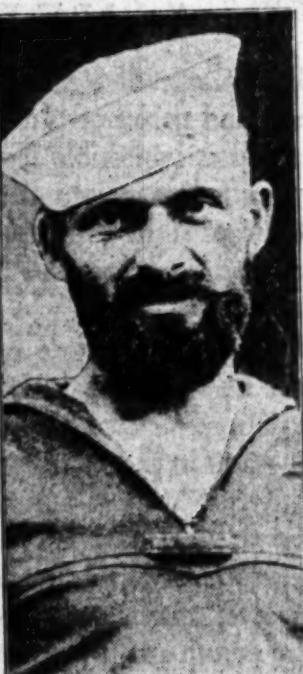

Giant Log Raft, the second of the season, arrived recently at San Diego after the 1007-mile sea trip from Astoria, Or., in tow by the Red Stack tug Sea Scout. The raft, containing 5,000,000 feet of lumber, encountered a bad weather en route. Photo shows raft at San Diego. (P. & A. photo.)

On the Air Yesterday via KHJ were Miss Beatrice pianist-instructor (middle), Miss Kathryn Taylor son, saxophonist (right), and the Lyman (left.)

Prunes are Expensive—more expensive, according to Southern Pacific Railway officials, than locomotives, considered pound for pound. Prunes cost 17.3 cents per pound wholesale; the locomotive costs several cents less. In the above photo, Chase McDonald is trying to figure out a way to test the assertion by means of the scales she holds in her hands.

Only Bearded Sailor in the United States Navy is Ellis W. Eldred (above) of the cruiser Denver. Eldred is 30 and good looking. (P. & A. photo.)

And Speaking of Hirsute Adornment, consider the party above, known as the "Soap Box Evangelist" of Homestead, Fla. The virgin crop maturing on the Florida orator has not known shears or razor for over a half century. (Herbert Photos, Inc.)

Piano Movers are Always Husky, but it never occurs to anyone to consider a player as powerful. Take a look at Fred Elizalde (above), orchestra leader of Cinderella Roof and "boy-millionaire pianist." He has just burst a glove through contracting and expanding the muscles in his hands developed through playing. (Times photo.)

## OUR HISTORY IN PICTURES 467

### The Situation in Kentucky.

by J. CARROLL MANSFIELD

IN 1861 THE PEOPLE OF KENTUCKY SET OUT TO MAINTAIN A POLICY OF STRICT NEUTRALITY. PRESIDENT LINCOLN KNEW THAT UNION SENTIMENT WAS STRONG IN THE STATE AND BELIEVED THAT IF THE CONFEDERATES WERE ALLOWED TO COMMIT THE FIRST ACT OF AGGRESSION ON ITS SOIL, KENTUCKY COULD BE SAVED FOR THE UNION CAUSE.

EARLY IN SEPTEMBER THE CONFEDERATE GENERAL LEONIDAS POLK, WHO BEFORE THE WAR HAD BEEN EPISCOPAL BISHOP OF LOUISIANA, OCCUPIED COLUMBUS, KENTUCKY, AND PREPARED TO MARCH ON PADUCAH AT THE CONFLUENCE OF THE OHIO AND TENNESSEE RIVERS.

MEANWHILE, GEN. ZOLICOFFER WITH ANOTHER CONFEDERATE FORCE INVADED SOUTHEAST KENTUCKY BY WAY OF CUMBERLAND GAP. GEN. U. S. GRANT WITH A FEDERAL ARMY WAS AT CAIRO AND AT ONCE OCCUPIED PADUCAH, GIVING THE UNION FORCES CONTROL OF THE MOUTHS OF TWO IMPORTANT RIVERS, THE TENNESSEE AND CUMBERLAND.

A FEW DAYS LATER, THE KENTUCKY LEGISLATURE, AROUSED BY THE CONFEDERATE INVASION, VOTED THAT THE "STARS AND STRIPES" BE RAISED OVER THE CAPITOL AT FRANKFORT. THE DECISION OF THE KENTUCKIAN PEOPLE A NEW THEATRE OF WAR IN THE MIDDLE WEST AND BECAUSE OF ITS MILITARY IMPORTANCE THIS REGION WAS DESTINED TO BE THE SCENE OF MUCH HARD FIGHTING. TOMORROW—STRUGGLE FOR FRANKFORT.

These daily history strips make a unique pictorial history of America.

Hundreds are clipping them daily and pasting them in scrapbooks.

# BORAH RAPS AL SMITH'S DRY STAND

Senator Assails New York  
Republicans for Not Tak-  
ing Definite Attitude

WASHINGTON, July 27. (AP)—Republican leaders in New York State were rebuffed today by Senator Borah, Republican, Idaho, who said in a statement that they were attempting to sidestep the prohibition question and were afraid of "Al Smith's dry stand."

"They are in a constant state of fright," he asserted. "If Al Smith would retire from politics and invest some way of convincing them that he would retire, we would likely have a wholly different program."

Every move made is made in a state of fright from Al Smith's shadow. They dare not get into the spotlight lest they see his shadow; they dare not walk in the night lest they be pursued by his shadow. Hence they keep in the dark of every question."

They were afraid to declare for a repeal of the Eighteenth Amendment as it would lose them the dry vote. They were afraid to declare for its enforcement lest it would lose them the wet vote, so they started out to do two things: first, to have a referendum that would be construed in a dozen different ways and second, to have a candidate for Governor who had no views on the prohibition question, never had and never could have.

"The Republican party was organized to stand for the Federal Constitution against this kind of disunion as to its enforcement in the different States."

# LOTTERY OF DEATH HIT IN APPEAL

Attorney for Wolfgang  
Makes Unusual Plea to  
State Supreme Court

SAN FRANCISCO, July 27. (AP)—Judge can make a lottery of a condemned man's life by drawing out of a hat to determine on what day the person should be executed, it is contended here in an unusual appeal to the State Supreme Court in behalf of Isaac Wolfgang, Los Angeles murderer.

In a petition for a writ of habeas corpus to the State Supreme Court, counsel for Wolfgang, said that the appeal was made by the State of California, which had been convicted by a jury of the murder of a woman named Victoria R. McGowan and a number of other persons.

Wolfgang's case has already been up to the United States Supreme Court, where his appeal was denied. He was sentenced to death by a jury in the Los Angeles Superior Court, where his appeal was denied. He was sentenced to death by a jury in the Los Angeles Superior Court, where his appeal was denied.

# TOTE LUCRE TIDE RISES

Outlay in Illinois  
Near Million

Senate Investigators Dig Up  
Another Insult Gift and  
Swell Funds Total

Committee Defied by Negro;  
McKinley Bid for Ballots  
Via Charities Denied

CHICAGO, July 28. (AP)—Another outlay by Senator McKinley, Chicago, to defile the Illinois State Capitol, to the campaign funds raised in the April Illinois primary was disclosed today by the Senate Campaign Funds Committee.

It was \$10,000 paid to the powerful Democratic Republican faction of the State, which generally supported Frank L. Smith, chairman of the Illinois Commerce Commission.

The increased known outlay by McKinley during the primary campaign to \$10,000, of which \$10,000 was a gift to the Smith campaign, \$10,000 to George E. Brennan, and the Democratic Senate nomination and \$10,000 to the Democratic party in Cook county.

McKinley's contribution was testified by Charles V. Barrett of Chicago, head of the Democratic party organization, who disclosed also that he had given a total of \$10,000.

With other but smaller outlays testified to during the Illinois primary to \$10,000, of which \$10,000 was a gift to the Smith campaign, \$10,000 to George E. Brennan, and the Democratic Senate nomination and \$10,000 to the Democratic party in Cook county.

The \$10,000 outlay contribution raised today was withheld from the record by the donor, but it was disclosed by the donor's attorney, who testified that he had given a total of \$10,000.

# CATHOLICS JAM CHURCHES AS DAY OF CLOSING NEARS

Mexico's Maimed, Crippled Make  
Pilgrimages as Priests Prepare  
to Retaliate Against Law

NOGALES (Ariz.) July 28. (AP)—The Mexican press tonight carries a dispatch saying that three generals in the State of Guerrero have revolted. The names of the asserted revolutionary generals were not made public. The Secretary of War plans to send Federal troops against them, the dispatch says.

MEXICO CITY, July 28. (AP)—Mexico presented again today a picture, perhaps unprecedented since the middle ages, of vast assemblages throughout the entire nation moved in union by extreme religious emotion. From wretched hovels and the sumptuous residences of grandees, the faithful of the Roman Catholic Church swept in countless multitudes to their places of worship, beseeching the divine authority to come to the relief of the faith they believe to be endangered.

Each day worshippers have come to the Mexico City cathedral and the Shrine of Guadalupe in increasing numbers. Today they overflooded all the areas around the cathedral, sweeping in solid streams through all the roads leading to the Shrine of Guadalupe, the favorite shrine of Mexico and dearest beloved of the Indians throughout the nation.

Every Catholic church throughout the country held its greatest crowd. With Saturday the last day on which Catholics priests will officiate in the churches, in obedience to formal orders withdrawing the priests as a protest against the government's new religious regulations, the faithful of that religion are engaged in an intense movement to avail themselves to the utmost of the rites of their church while opportunity permits.

GOVERNMENT VIEW  
The government firmly contended today its preparations for indefinite enforcement of the regulations, and also its investigation of the proposed opposition to these regulations in the form of an "economic boycott" under the leadership of the League for Defense of Religious Liberty.

The executive of the league, who are prominent Catholics, are under arrest charged with inciting the people to disorder by their program, which if put into effect, would mean the purchase of any absolute necessities, so that business and industry would be paralyzed and the government suffer economic difficulties.

Consideration is being given by the government to the question of a judicial examination, leading to the formation of a committee to investigate the charges against the priests. The committee would be composed of laymen and priests.

Further information has been received of the reported killing of a priest in the State of Sonora, which was reported by an informed source.

MEXICO CITY CROWDED  
Mexico City is crowded with Catholic visitors from all parts of the republic. The visitors are of various ages and are of various social classes. They are all Catholics and are all devout.

Many of the visitors are of various ages and are of various social classes. They are all Catholics and are all devout. They are all Catholics and are all devout.

# LIQUOR ON SHIP EXPLAINED Leviathan Passengers Bring it Aboard, Captain Admits, Adding None Sold

NEW YORK, July 28. (AP)—Liquor is not sold on the United States liner Leviathan, it was testified at a hearing instituted by officials of the line today, but it is carried on the ship in large quantities by passengers and is brought to the table and carried about the dining-room by ship's stewards.

The inquiry was begun by Thomas H. Donohoe, general manager of the line, due to anonymous charges that liquor had been sold on the ship.

Mr. Donohoe reported that no liquor was sold on the ship, but that it was carried on board by passengers and was brought to the table and carried about the dining-room by ship's stewards.

It was testified that the ship's captain, who has been in the line since 1918, the year the liner was built, had never sold liquor on the ship.

Mr. Donohoe reported that no liquor was sold on the ship, but that it was carried on board by passengers and was brought to the table and carried about the dining-room by ship's stewards.

# RUM EXPOSE PROMISED Suspect to Tell of High-ups

Scores Arrested Following  
Forty-one Deaths from  
Poison Alcohol

Bootlegger Charged With  
First-Degree Murder in  
Liquor Fatalities

BUFFALO (N. Y.) July 28. (AP)—Announcement by attorneys for James Voelker, alleged poison-liquor distributor, that he will tell all he knows about the ramifications of the ring with which he did business, featured developments today in the investigation into the poisonous-alcohol situation here. The death toll resulting from the sale of 3000 gallons of had alcohol said to have been shipped here from New York as pure grain alcohol, amounted to forty-one. The latest victims were reported dead in Jamestown, N. Y., and Toronto, Ont.

James C. Roberts, Jr., dry goods merchant, made it known that Voelker, in a partial confession, stated that he had sold 400 gallons of the poisonous alcohol and that he had 100 gallons still in his possession when he learned it was poisonous and destroyed it.
